County Commissioner Commodore O. H. Perry, one of the wealthiest and best known farmers in Huron county, was married last evening, by Rev. J. M. Seymour, to Miss Minnie Town. The bride is a daughter of Deputy Sheriff S. P. Town, and for several years has been chief clerk in the county auditor and county clerk's offices.

KOCH'S DISCOVERY.
A remedy discovered that is of far greater efficacy than the noted lymph.

The *tubercle bacilli* were discovered by Prof. Koch, to be constantly present in all cases of consumption. Where the blood is impoverished or impure, there results that constitutional condition known as scrofula, which is characterized by the liability of certain tissues to become the seat of chronic inflammations and enlargements.

These troubles may start as catarrh in the nasal passages, throat or lungs, and as the membranes become weakened, the tubercle baccilli enter, and multiply, and we have, as a result, that dread disease—Consumption.

Find a perfect remedy for scrofula, in all its forms—something that *purifies* the blood, as well as *claims* to. That, if it's taken in time, will cure Consumption. It has been found in Dr. Pierce's Golden Medical Discovery. As a strength-restorer, blood-cleanser, and flesh-builder, nothing like it is known to medical science. For Scrofula, Bronchial, Throat, and Lung affections, Weak Lungs, severe Coughs, and kindred ailments, it's the only remedy so sure that it can be *guaranteed.* If it doesn't benefit or cure, your money is refunded.

TALK IN THE EAST

The Syracuse Convention the Chief Topic

Of Gossip Among New York Politicians.

What the Metropolitan Journals Say

About the Protest Against Hill's Convention.

The Sun is as Bitter as Ever and Never Will Get Over Its Hatred for Grover Cleveland—The Cry of Mugwump.

New York, June 1.—Commenting on the Syracuse convention the World says: "The managers of the Syracuse assemblage proved themselves to be very poor politicians. They were apparently so elated at finding themselves in a convention which they could control that they lost sight of everything except a temporary elevation of themselves.

"In their resolutions they laud Grover Cleveland, but in electing a contesting delegation to Chicago they have done more than all Mr. Cleveland's enemies have been able to accomplish towards preventing his nomination.

"Wm. R. Grace deliberately imperilled the success of the candidate for president whom he professes to favor in order to put himself at the head of a new machine in New York. It was at once the most selfish and the most stupid move ever made by an ambitious politician."

The Recorder says: "Perhaps the most important action of the convention was the creation of a permanent state organization. The 'dandelions' declare they have come to stay, so that there are row two democratic parties in New York.

"What effect this will have on Tammany hall is one of the interesting problems of the political summer and fall. Will they enter the race for the mayorality and nominate a county ticket against Tammany? The "dandelions" appear to be the masters of the situation. Will they be able as a condition of peace, to strip Hill of whatever Tammany support he has and give it to Mr. Cleveland?

"A great field for political intrigue and wire-pulling was opened up in Syracuse."

The Times says: "It was a thoroughly representative body and there was not a sign of the cut and dried methods of the ordinary party machine.

"The action of the convention from first to last was most judicious. Notwithstanding the intense enthusiasm that prevailed, it was ruled by a spirit of moderation. There was nothing bitter or factional in any word spoken or any act taken.

"The convention prepared the way not for division but for union, by giving expression to the actual sentiments of the democrats of the state and securing for them a representation which they were in danger of not having in the national convention.

"In other words, the real convention of the democracy of the Empire state was held in Syracuse yesterday and took the action which was in accordance with its will. This fact cannot fail to be recognized at Chicago, whatever action may be taken on the technical question of regularity in the methods of calling conventions and choosing delegates."

The Sun says: "A handful of discredited and disowned former federal officeholders, deprived of their posts by the unwise and suicidal nomination of a presidential candidate whom they are again endeavoring to put in the field, held a farcical convention of bolters in Syracuse yesterday under the lead of some miscellaneous mugwumps.

"This mugwump gathering was called to impute irregularity to the convention which nominated the democratic electoral ticket, and if possible to embarrass the acts of the state committee upon which the candidates of the Chicago convention must depend for success in New York.

"Though long engaged in endeavoring to disorganize and distract the democracy, these mugwumps are now sounding the depths of political folly beyond the measurement of any gauge of vacuity yet discovered.

"The parallel of their foolishness is only to be found in their own previous proceedings. It will, however, occasion no damage to the democrats. The democratic electors nominated at Albany will carry the state and will vote in December for the next president and vice-president of the United States."

The Press says: "In the ecstatic vision of Mr. Kernan the whole country thirsts and hungers for Grover the Grandiose. Republicans view the condition of democratic politics in this state as shown by yesterday's convention with equanimity. They will regard the nomination of Grover Cleveland at Chicago with positive delight."

WATTERSON'S BURNING WORDS.

He Scores the New York Democrats in Bitter Terms.

Louisville, Ky., June 1.—Henry Watterson, under the head "Ugly Work at Syracuse," says in this morning's Courier-Journal:

"Those democrats who doubht the wisdom of going to New York for a democratic nominee could want no better vindication of their opinion than is furnished by the proceedings of the convention at Syracuse by protesting and contesting democrats of the empire state.

"These show for themselves and need no interpreter, or commentary. They disclose and emphasize all the old familiar elements of party disruption and discord; the claim of the one faction that it, and it alone, is true blue, and that its adversary is the embodiment of all that is wicked and detestable the gauntlet thrown down by the party of the second part to the party of the first part, with defiance and hate; and every preparation launched for a fight of reprisal and revenge, war to the knife and the knife to the hilt.

"Thus the brands of internecine strife are to be hurled into the national convention, and at a time when we need all our forces to win we are to have the abrogation instead of the consolation of the party discipline and duty in that state, without whose electoral vote we can not hope to elect our national ticket.

"These democrats in the country at large who have made themselves accessory to this state of affairs have taken upon themselves an awful responsibility, and they will need all the grace that is in heaven to pay the bill which the great body of more thoughtful and conservative democrats, who do not care a nickel about rival ambitions, but who want to beat the republicans, will send into the image worshipers and the hotheads when their rash precipitation and prospective intolerance have brought upon a great party and a noble cause, complete and needless shipwreck."

HARTER RENOMINATED.

The Democratic Congressman Unanimously Selected.

Shelby, O., June 1.—The democrats of this (the Fourteenth) congressional district, held their convention here. After the permanent organization had been effected, resolutions were adopted indorsing Cleveland's administration and expressing the hope that he would be the nominee at Chicago.

Hon. M. D. Harter was renominated for congress without opposition, and was greeted with great enthusiasm.

The first ballot for delegates resulted in the election of Hon. C. E. Critchfield, of Knox, and Dr. V. Myer, of Ashland. For alternates, Hon. G. F. Hott, of Morrow, and Dr. Vail, of Huron, were elected by acclamation. G. Sharp, of Lorain, was named for elector.

A MURDER AT CELINA.

Celina, O., June 1.—In the saloon of E. M. Jones, William Miller, John Gibbons and Matt Tigh, of this city, met and, having imbibed freely of whisky, became quarrelsome and a fight ensued between them.

Daniel Benjamin, the bartender, tried to pacify them, when they jumped upon him, assaulting him with a beer glass and knocking him down, inflicting two horrible wounds in his face, from which he died a few hours later. The three men have been arrested and placed in jail to await the result of the coroner's inquest.

HYDROPHOBIA AT LIMA.

Lima, O., June 1.—Oswell Jackman, a young man, was walking along the street on his way home. He stopped to pat a large black dog that was going past him when the dog snapped his wrist. Jackman paid but little attention to it at the time and went to bed.

About two o'clock in the morning he awoke in great pain and began to snap at his brother and tried to bite himself. Medical assistance was speedily brought and the doctors, after working three hours, succeeded in getting him quiet and then tied him to the bed.

NO END TO THE RAIN

Heavy Storms Again Reported in the West.

Rivers Once More Running Bank Full.

A Man, Wife and Three Children Swept Away by the Flood and Drowned—Storm Bulletins.

Arkansas City, Ark., June 1.—A heavy wind and rain storm raged here all day yesterday and late last night. It is feared it will put the Arkansas river on another boom. The wind is driving the waves against the Mississippi shore and will give the levees a severe trial.

Should they give way opposite this place a body of water twelve feet deep would sweep over that country for miles, carrying death and destruction in its path. A break occurred last evening in the railroad embankment, a mile below here. It is now about 60 feet wide and four feet deep and is widening fast. Arkansas City has had no trains since the 24th and there is not much prospect for any for two or three weeks.

Came Down in Torrents.

Wynne, Ark., June 1.—The rain fell in terrific torrents in the entire Arkansas valley yesterday and last night, and no levee along the right bank of the Mississippi river between Memphis and Vicksburg is now considered safe. The St. Francis river is falling near this point, but the White and Arkansas rivers are still rising near the Mississippi. Thousands of acres that were considered safe yesterday are inundated to-day.

Rained 24 Hours.

Denison, Tex., June 1.—For 24 hours it has rained uninterruptedly. The storm is one of the most violent of the present year. The whole country is overflowed with water. A number of bridges are reported carried away by the flood. The damage to crops cannot be estimated. Trains are delayed by a number of washouts on the several divisions centering here. Similar reports of flood damage at Gainesville and Greenville reach here.

Drowned in the Flood.

Guthrie, Okla., June 1.—Heavy rains have again caused the streams to rise rapidly and much damage has been done. A report reached here last night that an entire family of man, wife and three children were swept away and drowned while fording the Canadian river.

MRS. OSBORNE A MOTHER,

And the Child Was Spared the Odium of Prison Birth.

London, June 1.—Mrs. Florence Ethel Osborne, who gained unpleasant notoriety through the theft of Mrs. Hargrave's jewelry, has given birth to a daughter. When Mrs. Osborne was sentenced to nine months' imprisonment for the theft of the jewelry and her subsequent perjury in connection with the libel suit she brought against Mrs. Hargraves, her condition was used as a means to induce the home secretary to pardon her.

The efforts of her friends were successful, and her child was thus saved the odium of prison birth.

DROPPED DEAD.

John S. McKinley Dies of Heart Disease at a Club Room.

Philadelphia, June 1.—John S. McKinley, lawyer, politician and one of the most prominent citizens of Philadelphia, dropped dead in the rooms of the republican city committee last night.

He was a delegate to Minneapolis and was discussing his approaching trip in an animated manner with a group of influential republicans, when he was seized with a fainting spell. He sat down on a sofa and in a few minutes fell over dead. His demise was due to heart failure.

MONUMENT TO MESSMATES.

Corning, N. Y., June 1.—The monument erected by the American Flint Glass Workers' union to the memory of the glass blowers who were killed in the Ravenna railroad accident last year is about completed, and it will be unveiled at the approaching convention of the union here. The monument is 25 feet in height, in the shape of a horse-shoe with a keystone in the center upon which the seal of the Glass Blowers' union is engraved.

SUICIDE AT STEUBENVILLE.

East Liverpool, June 1.—Fred Miller, a resident of this city and tailor by occupation, committed suicide at Steubenville by throwing himself into the Ohio river. He lately became possessed of considerable wealth, left him by his father in Germany, and ever since he obtained the money he has been on a wild jamboree, and has smoked to distraction the deadly cigarette, of which he was passionately fond.

FOSTORIA NOTES.

Fostoria, O., June 1.—The young man who attempted to criminally assault 12-year old Sadie Smart has been identified as Will Van Heyde, a youth of 17 years old, not of particularly sound mind. When arrested he pleaded guilty and has been bound over to court in $1,000.

Rev. Henry Gardner, until recently pastor of the First Presbyterian church here, has accepted a call to the Presbyterian church at Kokomo, Ind., and will accept his new charge at once.

HARMONY

Characterized the County Democratic Convention

Held To-day by a United Host at Druid Hall.

Delegates to the District and State Conventions Elected.

Frank Hurd Endorsed for Delegate at Large,

And W. J. Colburn for District Delegate—Happy Speech by Chairman Lewis—Respect to the Memory of the Late Dr. W. W. Jones.

The democratic convention, held at Druid hall to-day, emphatically illustrated two things: That local differences between democrats are things of the past and that Grover Cleveland is the first choice of the democrats of this section for president. It was harmoniuos throughout, and even the contesting delegation from the Ninth gracefully withdrew.

The county convention was held to select delegates to the district and state conventions. The convention was called to order at 11 o'clock. It was a Cleveland convention from the start. The incipient attempt to capture the Seventh for Hill was rather a flat failure.

O. A. Browning, chairman of the county central committee, called the convention to order. He said that it had been called to select 15 delegates to the state convention and 42 to the district convention.

He nominated C. T. Lewis for temporary chairman.

Mr. Lewis, on taking the chair, thanked the convention for the honor conferred and briefly stated the object of the meeting. He said that he did not know a more appropriate definition for the common enemy which they were again to meet than that given by the only democrat that had filled the presidential chair in over a decade—Grover Cleveland (cheers). Mr. Cleveland, in one of his great speeches, thus defined the republican party:

"The party we oppose rests upon no fundamental principle; sustains a precarious existence upon distorted sentiment, and relies for success upon the varying changes of selfish interest and popular misconception."

The definition was exact, and none better could be given. In conclusion Mr. Lewis urged the delegates to see to it that Lucas county at to-morrow's district convention secure a representative to the Chicago convention, and also to see to it that northwestern Ohio was represented in the delegation at large by that democrat who was recognized as the apostle of tariff reform.

The speech was punctuated with cheers. M. P. Murphy, of the Bee, was elected temporary chairman, and the appointment of the various committees was then proceeded with.

On the motion of Mr. Parks Hone a committee of one from each ward was appointed on a committee of credentials, rules, permanent organization and resolutions, as follows:

Committee on Rules and Permanent Organization.

First—Parks Hone.
Second—J. M. Eley.
Third—Dr. E. D. Scheble.

Oregon—Nathan Gardner.
Richfield—E. L. Bamon.
Sylvania—Foster Warren.
Washington—J. L. Stratton.
Waterville—J. M. Hughes.
Waynefield—H. A. Bandburg.

In order to facilitate business, Mr. Hone moved that the temporary organization be made permanent, and that the rules governing legislative bodies prevail in the convention. Carried.

As there was no contest from any ward ward, the committee on credentials was dispensed with.

On motion of Mr. Wm. Beatty a committee of one each from the wards and townships was appointed to announce delegates to the district and state conventions respectively.

Following are the committees:

District.	State.

The following resolutions, prepared by the committee, were presented by William Beatty and unanimously adopted:

That the democracy of Lucas county in convention assembled, declare their fealty to the principles of the party, as put forth in its platform, and promise to labor to carry them into effect.

Recognizing the statesmanship and honest devotion to the cause of democracy of Hon. F. H. Hurd, who has always been a staunch advocate of tariff reform, and who proclaimed his adherence to this doctrine when others shirked the question; whose career as a public man deserves the recognition of the nation, and who possesses to-day the friendship and good will of the united democracy of the district, we instruct the delegates from Lucas county to the state convention to use every honest endeavor for his election as one of the delegates-at-large to the national convention, to be held in Chicago.

That this convention, recognizing the personal worth and unflinching democracy of W. J. Colburn, takes pleasure in instructing its delegates to the district convention to vote as a unit for his choice as one of the delegates from the Ninth congressional district to the national convention.

We learn with deep sorrow the demise of our fellow townsman and democrat, Hon. W. W. Jones, who has for half a century spent a useful and eminent career in our midst. His example as an upright citizen, faithful officer of the people, and patriotic conduct upon all occasions, together with his devotion to the cause and principles of the democratic party, will remain as an everlasting monument with us. We tender the bereaved family our heartfelt sympathy in the hour of their affliction. May they find consolation in the fact that their great loss is shared by this convention and the entire community alike. That a copy of this resolution be sent to the family, and be made a part of the records of this convention.

Before adjourning Chairman Lewis announced that the district convention would meet in Druid hall to-morrow morning at 11 o'clock. The convention then adjourned sine die.

Notes.

District convention to-morrow at Druid hall.

Lucas county will be well represented at Columbus.

C. T. Lewis made an excellent presiding officer.

Jim Dailey made a great fight, but he evidently was not in it.

Four hundred votes in the Seventh was not bad for a primary.

Captain P. H. Dowling was heartily welcomed in the convention.

Dick Ford, of Air Line Junction, is a candidate for alternate to Chicago.

The contesting delegations from the Ninth took things quietly and made no kick.

L. G. Richardson is suggested by several delegates for chairman of to-morrow's convention.

L. C. Cole, of Bowling Green, C. E. Werden, of Delta, and William Habbeler, of Genoa, who are candidates for delegate to the Chicago convention, were shaking hands with the delegates this morning.

The opposition ticket in the Seventh ward did not cut much of a figure, the vote being 336 to 36, and the statement is made that but for the hustling done by Frank McManus and Anton Sceperski, it would scarcely have been known that there was a second ticket in the field.

FORAKER IS FOR FIGHT

Dollars to Doughnuts He Makes a Break

At the Minneapolis Convention—A Caucus Called for Saturday Night.

Columbus, June 1.—The Ohio State Journal this morning has the following:

There were two accidents bearing on the situation of the Minneapolis convention yesterday which are worthy of note. One was the revelation of the contents of a letter from the pen of ex-Governor Foraker, and the other was the interview of Secretary of the Treasury Foster.

The contents of the Foraker letter can be easily explained. It is understood that the ex-governor has written a letter to every delegate in Ohio who is personally friendly to him or politically hostile to Harrison to be on the grounds at Minneapolis not later than Saturday next in order to attend an Ohio conference of the anti-Harrison men. One of the letters was sent to a delegate who is rather neutral and he showed it to a Harrison man, who in turn revealed its contents to the newspaper men.

There is more than passing significance in this personal appeal of Foraker. It is in keeping with his speech at the Cleveland convention just after his selection as one of the delegates-at-large. He sounded the tocsin of war against the renomination of President Harrison then in a mild way; he now mounts the saddle and assumes the leadership of the opposing forces, at least as far as Ohio is concerned. The logic of the letter is that Mr. Foraker proposes to be aggressively active in the effort to prevent the renomination of Mr. Harrison. He will command the little band of Harrison malcontents from Ohio at the national convention and will be more or less ably assisted by his chief lieutenant, George B. Cox, of Cincinnati.

At present Governor Foraker and all the other anti-Harrison leaders are engaged in the exciting game of booming Blaine. The magic of his name furnishes them ample ammunition for enthusiasm and the supply will continue so long as Mr. Blaine remains silent. As has been explained in these columns before the Blaine boomers are divided into two classes which are easily distinguishable. One class desire the nomination of Mr. Blaine because of their high appreciation and adoration for him; the other class desire Blaine because in him they find the means of preventing the nomination of President Harrison. With the latter class the defeat of Harrison is paramount to the nomination of Blaine. They might properly be designated as the Harrison malcontents. Their scheme is to nominate Blaine if he does not prevent it, and in case they can't get Blaine they hope to create enough opposition to make it an open race. It is believed that the conference Saturday is for the purpose of selecting some strong man upon whom the opposition can concentrate in case Mr. Blaine forbids the use of his name at the last moment.

The Harrison malcontents are claiming 18 of the 46 delegates from Ohio, but it is a difficult task to find more than 16. Many of the Ohio delegates were Mr. Foraker's friends formerly while he was governor, but they are not disposed to follow him now, were not with him in the senatorial contest, and will not be with him at Minneapolis. As far as the Ohio forces are concerned, they will be divided on about the same lines as they were in the recent senatorial contest. The effect of the Foraker letter will be simply to solidify the Harrison supporters in Ohio.

Following are the names of Ohio delegates who have been invited to the Foraker conference next Saturday and Sunday: Asa S. Bushnell, of Springfield, George B. Cox, Charles Fleishmann, Norman G. Kenan, George Fox, all of Cincinnati; Erskine Carson, of Highland; G. W. Stanley, of Warren; Elmer S. Kelly, of Clarke; D. I. Worthington, of Fayette; C. C. Harris, of Hancock; W. H. Tucker, of Lucas; John B. Wilson, of Wood; L. F. Fenton, of Adams; Samuel Llewellyn, of Jackson; W. H. Johnson, of Muskingum.

The interview of Secretary Foster is regarded by many as presenting the side of Mr. Harrison's supporters. It is a carefully prepared statement and between the lines it seems that the Harrison men are now determined to win even if they are compelled to openly oppose Mr. Blaine, under whose popularity Mr. Foster explains, the Harrison opposition is mustering. Mr. Foster says: "It seems to me that an acceptance by him (Blaine) after the struggle that will have to be made to obtain the nomination will surely make him a weak candidate."

The developments of yesterday as regards the Ohio delegation would indicate that the Foraker men and the Foster men from Ohio are likely to meet on the arena at Minneapolis.

SMALLPOX.

Parkersburg, W. Va., June 1.—The reports of smallpox in a virulent form at Pomeroy, Mason City, and Lotart have abundant foundation. Chicago, June 1.—It has become a hobby among Chicago gentlemen to own a private steam yacht and Chicago's fleet of these fine pleasure craft is being added to almost daily now. Michael Cudahy's steam yacht built expressly for him by the Detroit Boat works at Detroit, arrived in Chicago yesterday and was moored in C slip in the mouth of the harbor.

She is 70 feet in length, 18 feet beam, 7 feet hold, and measures 31 tons. Her model is about as near perfection as can be imagined. She has triple expansion engines with excellent power, but is intended as a family yacht and not as a racer and her average speed is about 11 miles an hour. She carries two spars, has flush decks, and is finely appointed and fitted below. The name given the fine new craft is the Catherine. Capt. E. B. Blair brought her up to Chicago from Detroit and it is undertsood will remain in command.

Captain Peter Cronley, the well-known lake navigator in merchant ships, is to have charge of the new crack steam yacht built in New York for Oswego parties. This craft is pronounced phenominal, her speed being placed at thirty miles an hour. Col. John Mason Loomis, of Chicago, is to bring his fine sail yacht Viking home to the lakes. She is a member of the New York Yacht club, and will be accompanied here by several other craft belonging to that club, both steam and sail.

Thomas Bradwell's sail yacht is rapidly approaching completion at one of the Chicago yards, and will be launched at an early date.

Team work is the most important item after getting together players of ability in their respective positions. Record players and disorganizers must be sifted out. One of either is sufficient to spoil everything. All the great captains, Anson, Comiskey and Ward, handle their charges in this manner. Anson is a great example for young players who hope to lead a champion team to study. The old man, as he is referred to in the Windy City by almost every crank, is the greatest captain of them all. His success is, however, partly due to the fact that he is supreme in all matters pertaining to the Chicago players on and off the field. He has no president, manager or board of directors to run counter to his wishes. When Anson became convinced that he cannot handle a player or that he will have a great deal of trouble doing so he gets rid of the man as soon as possible. Kelly, Clarkson, Gore, Baldwin, Daly and Pfeffer were all either sold or let go by the Chicago management because Anson wanted it so. He thought he could get along better without them, and the result was they went. Anson is convinced that team work cannot be attained as long as disorganized or dissatisfied or unruly players hold forth, and the best player on the diamond would not be permitted to play under that man if his authority over him is not respected.

While Comiskey is a players who uses his brains as well as his hands, the main cause for his success lies in his earnestness and ability to arouse enthusiasm and keep up the interest among his players. The result is they play with snap and never quit until the game is finished.

John M. Ward, Brooklyn's brainy captain, is also considered an A1 man in this position. Always playing the game for what there is in it, he manages to get the same class of work out of his men. Ward, however, has always been given teams of first-class men to handle, which is not the case as far as Anson and Comiskey are concerned.

Such is the estimate of the St. Louis Post-Dispatch of the three greatest of all base ball commanders.—Times-Star.

San Francisco, Billy Murphy, New Zealand, and Johnny Murphy, Boston, fought to a finish at the Pacific Athletic club last night, for a $1,250 purse. Johnny Murphy, who is the boxing instructor of Harvard college, was something of an unknown here, it being his first battle on the coast, and the betting favored his namesake at odds of 20 to 12. Billy's victory over Johnny Griffin and Ike Weir and the memorable draw with Frank Murphy of England, in which the Australian broke his arm being still fresh in the minds of the sports. Moreover, Johnny Murphy was believed to be handicapped in everything but weight and pluck. The men had been carefully trained close to the 116-pound limit.

Al Reggins and Dan Fitzgerald seconded the Bostonian. Martin Murphy and Sol Smith seconded Billy Murphy. Mike Sullivan was th ereferee. Time was called at 9:28. The Australian looked like a full-grown man beside the pigmy.

At first the advantage lay with the long-armed Australian, but by clever dodging the Bostonian got in some very clever work. At the end of the 13th round Billy was in bad shape, and only Johnny's lack of reach prevented him from finishing the fight right there. In the 15th Billy drew blood from Johnny's cheek.

In the 25th round Johnny knocked Billy down; then for ten rounds there was nothing done. Manager Harris announced that if the men did fight during the 40th round the fight would be declared "no contest." The club would not possibly declare it a draw.

At the end of the 40th, nothing having bee ndone, Referee Sullivan announced that as the men would not fight, he would celare the contest postponed until the end of June. Later it was decided that the fight be continued to-morrow night.

The Minneapolis Tribune is much displeased with the Western league and reads President Williams the riot act. The Tribune is too severe on a worthy officer. It says:

"There is much grumbling in the Western league over the lothargic actions of Pooh Bah Williams toward securing capable players and some of the weakness of the millenium plan of running base ball are beginning to make themselves manifest. The system itself has few defects, but it needs a competent hustling head to keep matters moving on the right track. No one questions the integrity of Williams in his steadfast adherence to the cause of base ball. He simply isn't a hustler and the clubs that have been crippled or deprived of the services of players to their financial detriment, are not in a humor to stand much longer his poky notions. While other clubs are kicking, Minneapolis has much the greatest cause of complaint and ever since the opening of the season the club has been short a pitcher. Telegram after telegram has been sent him asking for a pitcher, and yet with the end of the first half of the season in sight, no pitcher has been assigned. The Eastern league was organized after the Western, yet it has been able to secure strong and capable pitchers and yet keep within the salary limit, which is exactly the same as in the Western. This fact is not to the credit of the president of the Western league. Milwaukee, Toledo and Indianapolis are likewise kicking vigorously, the first-named city even threatening to withdraw from the league. This step is hardly likely to be taken, but it is liable to induce Williams to get up and hustle for players. There is plenty of suitable material to be had if looked for in the proper place. And men will have to be obtained."

London, June 1.—Derby day opened with light showers and sunshine and an occasional breeze sweeping over the Epsom Downs. The crowd is greater than usual, perhaps owing to the intense interest that has centered this year around the derby.

A few weeks ago the odds were all in favor of Orme, the Duke of Westminster's wonderful three-year-old. Then came the report that Orme had been poisoned.

The sporting public hesitated to believe that such an outrage had been committed, and for a few days, even in the face of the reports, the odds continued greatly in favor of Orme, being as much as five to one for the derby. The Duke of Westminster said that he would run Orme at the derby even if the colt had to go on three legs. But as time went on it became evident that Orme, if not ruined beyond ultimate rescue, would at least have to be taken out of the derby this year, and he was withdrawn a few days ago.

La Fleche, Baron Hirsch's brown filly, had been a favorite with many, even while Orme was in the field, and when Orme was disabled La Fleche took the leading place with bettors. The bookmakers, however, have shown no reluctance to take up all the bets offered on La Fleche, and some experienced sporting men have not hesitated to give their opinion that Baron de Hirsch's mare would not be the first in the race, notwithstanding her victorious record of last year, when she swept the Chesterfield stakes at Newmarket, the Levant stakes at Goodwood, the Nassau stakes at Goodwood and the Champagne stakes at Doncaster. Somehow certain horsemen who ought to know have had a mysterious lack of confidence in La Fleche.

The public, however, have remained true to the mare on the principle that past victories are the best assurance of future triumph. Therefore when the news came the other day that Baron de Hirsch was critically ill in Paris, and that if he died La Fleche would be withdrawn, there was another sensation almost as great as when the reported poisoning of Orme was announced and the extraordinary spectacle was witnessed of sporting announcements bearing to eager patrons the news from what was feared to be the deathbed of a prominent man.

Bonavista, Mr. Rose's chestnut colt, by Ben D'Or out of Vista, came prominently to the front. Bonavista won the Woodcote stakes at Epsom last year and was third in the New stakes at Ascot, which were won by Lord Arlington's Gold Finch, and was third in the Chesterfield stakes at Newmarket, last July, La Fleche being first and Col. North's Lady Hermit second in that race.

It will, therefore, be seen that Bonavista has no such record at La Fleche, and was actually beaten by La Fleche last year. The backers of Bonavista seem, however, to have complete confidence in the colt and have backed their confidence with their money. Mr. Rose, the owner of Bonavista, also has shown a great deal of confidence in his brown colt Damien, by St. Damien out of Distant Shore. St. Damien last year won the Stud produce stakes on the Chesterfield course at Newmarket, beating Baron Hirsch's brown colt Windgall, which was second and Prince Soltykoff's black or brown filly, Shining Star, which was third. St. Damien was second for the Bedford 2-year-old plate, being beaten by Mr. Milner's Desdemona and was second in the thirty-ninth triennial stakes at Ascot, when Lord Arlington's Polyglot was first and Desdemona was sixth in the race. This is considered by horsemen a most promising record and as giving good reason for Mr. Rose's faith in St. Damien. Sir Hugo won.

The winner of the derby to-day, Sir Hugo, chestnut colt, by Wisdom out of Manoeuvre, owned by Lord Bradford. Sir Hugo won last year the Rous memorial stakes at Goodwood, in July, and the Boscawen post stakes, at Newmarket, in September. La Fleche was second and Bucentaur third.

This is an utter surprise to the betting public, as Sir Hugo had hardly been considered by sporting men as having even a chance. Sir Hugo was beaten last year at Ascot for the thirty-ninth triennial by Polygot and St. Damien, both in the field to-day, and was beaten by La Fleche for the Champagne stakes at Doncaster, last September, Gossoon being second and Sir Hugo third, and was only seventh in the race for the Middle Park plate, last October, when Orme was first, El Diablo second, Gauntlet third, St. Angelo fourth, Polygot fifth, and Silvermint sixth. It will, therefore, be seen that all probabilities were against Sir Hugo, the betting as stated, was 33 to 1. The Frenchmen are greatly elated over Bucentaur's place in the race and many of them will be a good deal in pocket on the result.

The throng at the race was immense and the interest great. The Marquis of Queensbury and other well-known noblemen, drove in drags to Epsom, while Lord Roseberry, Sir Charles Russell, the Duke of Devonshire and many of the notable owners and trainers proceeded to the grounds by special train. There was a notable absence of royalty. The course was rather hard.

PASSED INTO HISTORY.

The Presbyterian Assembly is Over.

Protest Against the Action in the Briggs Matter – Closing Business.

Portland, Ore., June 1—Yesterday found great issues in the Presbyterian church settled and only echoes heard—the protest of Dr. Agnew, of Philadelphia, and others, that the action in the Briggs case in sending the matter back to the New York presbytery was unconstitutional; the protest of Dr. Sprague and numerous other commissioners who consider that an evil precedent had been established in giving such wide powers to the committee of prosecuting, and in the United seminary case the directors of that institution are to be heard from in regard to the proposed arbitration about transfers. The first topic of interest concerned the world's fair in disapproving of the section styled the "Parliament of Religion."

A mass of overtures from presbyteries and synods on Sunday opening led to the adoption of a resolution to the effect that if the fair should be opened on the Sabbath the Presbyterian exhibit shall be offered only on condition that it be closed on that day.

A resolution was adopted saying: "Our church holds that the inspired word as it came from God is without error. The vow of ordination recognizes that the Bible is the only infallible rule of faith and practice," and it was recommended that those officers of the church who have ceased to hold this view should seek a congenial place outside of the denomination without waiting for discipline. At the afternoon session an earnest plea for a deliverance by the assembly against the "practice of lynching negroes in this country," met with decided approval.

Elder McCook withdrew his statement of a year ago concerning donations made to Union seminary upon the basis of its doctrinal soundness, saying that he had no desire to wound the feelings of any member of the family of any such donor and no intention of characterizing the intent of any donor.

The committee of conference with theological seminaries was announced as follows: Doctors Hayes, Young, Blayney, Mutchmore, Moore, Bartlett, Hayley, Holmes, Wilson; Elders McDougall, Cincinnati; McCook, New York; Gray, Chicago; Bonner, Indianapolis; Joy, Detroit; Neglee, Pittsburg; Knox, Minneapolis.

An amusing scene occurred upon the introduction of resolutions calling the attention of ministers, elders and students to the evils of the tobacco habit. Finally the resolution passed with a shout. After the adoption of the usual complimentary resolutions, the 104th general assembly was dissolved.

UNHEARD OF GRIT.

An Operator Who Has Joined the List of Heroes.

Lima, O., June 1.—One of the most pathetic instances of heroic grit occurred at Decliff, a small station 35 miles west of this city on the C. & E.

C. S. Cory, the operator and agent at the above station, while attending to his duties in the yard, stepped out of the way of a train on the main track and directly in front of a switching engine that was backing some cars on a siding.

He was run down and had his legs cut off at the thigh. The poor fellow was carried half fainting into the telegraph office and by superhuman exercise of the power of mind over matter notified the train dispatcher at the other end of the wire of the accident that had befallen him. He fainted as soon as he had ticked out the fatal words and died within an hour. Cory was a married man, about 38, and leaves a wife and two children to mourn their loss.

CHARGED WITH TREASON

A Sensation Created in Honolulu.

Twenty Persons Arrested Charged With Conspiring Against Queen Liliuokalani.

Honolulu, June 1.—Again the capital city of the Paradise of the Pacific is aroused, the present excitement being caused by the arrest on the morning of the 21st ult. of 20 persons charged with the crime of treason against the Hawaiian government. The persons arrested are, from information received by Marshal Wilson, members of the "Hawaiian Protective Association," and have for their object the overthrow of the existing form of government by deposing Queen Liliuokalani and establishing a Hawaiian republic. The leaders of the movement are understood to be Volney Ashford and Robert Wilcox, the well-known agitators.

The reports that the arrests were to be made had been prevalent for some days, and those informed judged that the action was to be taken on the occasion of the meeting of the Hawaiian branch of the liberal party, held on the evening of May 19.

On that night 300 Hawaiians met under the presidency of Hon. J. E. Bush, and resolutions were put and passed unanimously declaring that the condition of public affairs in Hawaii is not satisfactory to the natives, demanding reforms and referring to the ignorant Tahitian so offensively conspicuous as a court favorite and apparent dictator of the throne. This is understood to refer to Marshal Wilson, to whom the nickname of "King Bolabola" has been given by the natives.

Speeches of like character with the resolutions were made by Hon. J. E. Bush, D. L. Huntsman and Robert Wilcox.

The resolutions and speeches appeared in the newspaper on the morning of the 20th, and that same morning the arrests were made. The alleged conspirators were brought up for hearing Monday, the 23d. After some argument, in which the attorney general asked for a continuance, the prisoners were remanded until May 26, an agreement being made for the presentation to counsel for defense of a more specific statement of the charge upon which the prisoners were arrested.

Wilcox asserts that Wilson's statement of the objects of the association is untrue; that Wilson is jealous of him (Wilcox) and his friendship and loyalty to the queen. "The association, if it exists," said he, "is to protect and not to dethrone her majesty." Ashford declined to say anything for publication.

Mr. Bush, who is editor of the Hawaiian paper, Ka Leo, and who has served several terms in the cabinet and in other public offices, made a statement in keeping with his speech and the resolutions adopted at the meeting. He had, he said, advised and will continue to advise his countrymen that their hope lies in the ballot. He had hope that during the coming session of the legislature they may be able to accomplish something. He talked of a republic with a continuous president, fashioned after the government of England, but with the motto of the United States—that is a government for the people and by the people.

Bush said Admiral Brown had sent for him and suggested that he inform the people that the United States understood their position and was their good friend; that he hoped Bush would counsel quietness, as Wilcox was prepared to declare martial law, and that meant a very unpleasant condition of affairs. Bush told the admiral that he had no fear of trouble from the liberal party, but that Wilson and the actions of the queen, who should be a mother to her poor people, were to be condemned. The trouble, Bush thought, will come from annexationists.

Cabinet Ministers Parker and Whitney are not satisfied that they acted rightly, but assert that they were compelled to act from the presentations made by Wilson.

A LETTER FROM ROME.

Rules of the Baltimore Council Must Be Followed.

New York, June 1.—A letter from Rome says that the important letter addressed by Cardinal Ledochowski to the Roman Catholics of the United States, indicating the policy resolved upon by Rome in the nomination of bishops, after referring to the letter written last July by Cardinal Rampolla, in the name of the pope, to the cardinal archbishop of Baltimore, says that rumors were spread at that time that the form of the hierarchy in the United States would be so altered as to permit the giving to the Catholic immigrants going thither from various European countries, bishops belonging to their respective nationalities.

The pope, however, declared that nothing of the kind would be tolerated. "Still," adds Cardinal Ledochowski, certain movements are apparent in that direction, and to these he desires to put a stop once for all."

"Whenever an Episcopal see is vacant in America, clergy and people become excited, different factions discuss possible candidates in meetings through the public press, and seek all means to advance their favorites.

The chief cause of these divisions is that Catholics, dividing on nationalities, demand bishops from the ranks of their several nationalities instead of keeping solely in view the welfare of the church. This welfare is the sole guide of the holy see in naming bishops for all countries, but especially, adds the cardinal, must this principal be followed in the case of the United States, whither populations go from various European countries, to the end that they build up there for themselves a new "patria" where they must coalesce into one people and form together one nation. This principle shall be kept steadily in view by the holy see, which, in consequence, will, in the naming of bishops, adhere strictly to the rule of the Baltimore council. The cardinal demands that this letter be made known to the priests and people in America, so that all agitation to the contrary cease for all time.

KILLED IN A MINE.

Another Gas Explosion Has Occurred.

As is Usually the Case the Man Who Could Explain the Disaster is Dead.

Wilkesbarre, Pa., June 1.—An explosion of mine gas at the Mocanaqua colliery of the West End Coal Co., which is located about twenty miles below this city, resulted in the death of one man, the fatal injury of another and the serious injury of eight others.

The dead man s John Protherce, first boss, aged 45 years. He leaves a wife and four children. John Walters, unmarried, 21 years old, was fatally injured.

The injured are: Henry Ritter, aged 47 years, seriously burned and will probably die; has a wife and large family.

Charles Ritter, brother of Henry, aged 20 years, unmarried; burned about head and body.

Wallace Deitrick, 21 years old, ribs broken and injured internally.

Peter Zombis, aged 37, side and shoulder badly mangled, with much loss of blood.

H. M. Everhart, 41 years, burned, married.

Fred Everhart, 17, badly injured.

William Hooper, 50, very badly injured and recovery doubtful; married.

Frank Deitrick, burned.

The cause of the explosion is unknown, as the only one who could explain the matter, Foreman Protherce, is dead. It is supposed the gas became ignited by the gauze of the safety lamp being burned out or over-heated, or else the bearer stumbled and dropped the lamp so that the flames reached the gas, and the explosion followed.

There were few men at work in the mine at the time, as the foreman was on a tour of inspection of the workings, and they could not go to their chambers before the foreman reported everything favorable. The damage to the colliery, which is one of the best managed in this region, is comparatively light.

After all, one parlor suite looks very like another—in the store.

It would be interesting if we could follow every suite home and watch results.

The car fortunately was running slowly at the time.

COAL GOES UP AGAIN.

An Advance in Hard Coal to Dealers To-Day.

At the office of the Delaware, Lackawanna & Western Coal company it was learned this morning that to-day an advance of 25 cents per ton on hard coal to dealers goes into effect. As yet the local dealers have done nothing toward an advance to consumers but such a step will undoubtedly be taken before long as a natural result.

ALBERT L. WALKER.

Arrangements Completed for the Funeral.

The funeral of the late Albert L. Walker will occur to-morrow afternoon at 3 o'clock from the residence of S. H. Keeler, 1523 Summit street. It was the wish of Albert, and he spoke of it just before his death, that the bearers would be chosen from the Battery boys, and in compliance with that wish the following gentlemen will act: H. B. Norton, Louis Coleman, J. B. Kapp, W. Keller, Curtis Potter, D. H. James, Jesse Hurlbut and H. D. Van Pelt.

WILL MANUFACTURE BICYCLES.

George Harriott, Formerly With the Gendron, Has an Idea.

George Harriott, who came to Toledo from England, and was with the Gendron Iron Wheel company for some time, has decided to manufacture bicycles himself. He has had several offers from Toledo capitalists, but as yet has not decided just where he will locate. He already has orders for 500 wheels.

The members of the Toledo Cycling club will go to Dayton and participate in the Fourth of July meet. Some will enter the races. The boys will go to Lima by train and wheel it from that place to Dayton.

Toledo cyclers were much pleased with the manner in which they were treated at Detroit Decoration day. There were 26 Toledoans on the trip.

MURPHY REFUSES TO GO,

And Labor Commissioner Lewis Will Have to Take Another Tack.

Mr. Charles W. Murphy, superintendent of the free employment office, still holds the fort with a commission good for nearly a year to come. Labor Commissioner Lewis has made charges of "inefficiency" against Mr. Murphy, and set yesterday as the time for hearing Mr. Murphy's defense. However, as the charges were not at all definite, Mr. Murphy did not go to Columbus to make any defense, but wrote Mr. Lewis that he was ready to answer any specific charges, if there were any to make. The labor commissioner has appointed August Smith to fill the free employment agency here, but Mr. Murphy has not been officially notified of that fact, and does not recognize it. From present appearances the labor commissioner will be obliged to adopt some new tactics if he wants to open this place to the greedy office seekers of the republican party.

DR. W. W. JONES.

The Funeral Exercises—Sanford Collins Lodge of Masons to Conduct Them.

A meeting of Sanford L. Collins lodge of Masons was held last night, to take action relative to the death of their late associate, Dr. W. W. Jones. Worshipful Master Crane has issued notice directing the membership to assemble at the Masonic temple Thursday afternoon at 1:30 to participate in the exercises, which occur at 2 o'clock at Memorial hall, and later to conduct the services at the grave in Forest cemetery. Invitation is also extended to all Masons in the city, as well as the surrounding territory, to attend.

The Toledo Medical association met yesterday afternoon and further perfected arrangements. Prof. Will Stackhouse will have charge of the music at the hall. Every member of the association is expected to be present. The pall-bearers were announced in last evening's Bee. Dr. Forbes will deliver the eulogy.

The remains will be taken to Memorial hall at 10 o'clock to-morrow morning, when those who desire can look at the body until the hour of the funeral.

JUDGE SALA ENTERTAINS.

The Gentlemen of the Press Enjoy His Hospitality.

Newspaper men know full well how to enjoy themselves, and last evening Judge F. M. Sala gave them ample opportunity to exercise their powers in this direction. The judge's handsome residence on Lawrence avenue was thrown open, and hospitality reigned unchecked. The evening was passed with cards and music, topped off by an elegant lunch. Judge and Mrs. Sala did everything in their power to make their guests at home, and how well they succeeded will be testified to before the court by anyone fortunate enough to have been present. Besides the newspaper men there were present Mr. and Mrs. L. G. Richardson, Mr. and Mrs. Geo. W. Leibius, Will Stackhouse and Gus Leibius. The party broke up at 12:30 after a most enjoyable evening, with nothing but the kindest thoughts of their amiable host and hostess.

DANGER ON THE STREET.

Reckless Running of Street Cars Should Be Stopped—The Authorities Should Act Promptly.

There is no excuse for the reckless methods of many electric motor men in Toledo. Human life has repeatedly been sacrificed on the altar of their carelessness, and it is time right now for the authorities to act in such a way as shall insure citizens from a repetition of the criminal practices.

There is no more dangerous railroad crossing in Ohio than on the street railways in Toledo on the corner of Summit and Adams. The motor men, on both lines, whiz around the curves regardless of orders and many persons have been pinched and have had miraculous escapes from sudden death. It is time to call a halt upon this recklessness. The companies ought to station watchmen at the dangerous corners. The city ought to compel better methods and safer expedients on all the lines. It is high time to act, and the Bee insists that attention shall be paid to this matter. This is a public notice to Mr. Lang and Mr. Robison.

LABOR NOTES.

Special Meeting of Electrical Workers Postponed.

The machinists meet at Turley's hall this evening.

This is the regular meeting night of the furniture workers in Phoenix hall.

Clerks' Mutual Protective union met at Elks' hall last night, and transacted business of interest to the union only.

The painters and decorators held a large and interesting meeting at Clarke's hall last night. This union is one of the strongest in the city.

The secretary of the Builders' Exchange has sent out notice of the meeting this evening, and there will probably be a large attendance. There has not been a meeting held in two weeks.

The special meeting of electrical workers called for last night was postponed on account of the extra work on account of the damage done by the storm. The meeting was called for the purpose of issuing traveling cards to members who are about to leave the city, and other business.

THE JUVENILES

Did Themselves Credit Last Night at Ursuline Convent.

The juvenile entertainment at Ursuline convent last night drew a large audience, notwithstanding the numerous other attractions, and the hot, muggy weather. It was evident from the hearty applause and expressions of pleasure, that every one present was well pleased. The young performers had been thoroughly drilled, and did credit to their teachers and themselves. There were aeolian selections, and songs and recitations by the intermediate and kindergarten classes, the whole closing with a beautiful tableaux, "Dottie's Dream," in which the following little ladies participated: Misses Annie Nolen, Edith Riely, Florence Daly, Lily Alter, Lovetta Wernert, Nellie Weaver, Clara Bodette, Therasa Young, Marguerite Parsons and Lucile Bower.

One of the best numbers was the recitation, "Minuet," in which six little girls dressed in old fashioned costumes of Nile green, white heliotrope, blue, yellow and pink, told how "Grandma danced the minuet, long ago." The Motion Song, Cuckoo, sung by the little Misses O'Brien, Schindler, Whilwham, Waite, Allen, McCartney, Reinhart and Dick, was also very pretty. The little ladies were neatly costumed, and their movements very graceful.

The good sisters and their friends, who have labored to make the entertainment successful, are to be congratulated.

Not in the Merchants' Detective Agency.

It is learned to-day that Detective Carew will not be connected with the Merchants' Detective Agency, announced as having been formed in last evening's issue. Patrolman Heinig is said to be Mr. Manly's right bower. This correction is made in justice to Mr. Carew, who has no knowledge of the proposed agency, so far as it relates to himself.

STRUCK BY LIGHTNING,

The Building of M. J. Cooney & Co. on Huron.

During the severe storm yesterday afternoon lightning struck the building occupied by M. J. Cooney & Co. on Huron street. The bolt struck the flagstaff first, shattering it to pieces, and then passed through the roof, making a hole about three inches in diameter, cutting the wood as squarely as if it had been done with a chisel. The frisky fluid then passed along the telephone wire and burned out the telephone.

THE HARMONICS

Last Night at Memorial Hall.

A perfect success in every particular was the concert given by the Harmonic society last night at Memorial hall. The program as printed in the Bee was carried out. The soloists were in good voice and every number was heartily applauded. It was an exceedingly pretty concert, as well as fine in a musical way. Toledoans are indebted to the society for a high grade of musical work. Words of praise are heard on every side for last night's entertainment.

LANDMAN & CO.

Charged With Fraud—Papers Filed in U. S. Court To-day.

Papers were filed this morning in United States court in the case of the Mellwood Distillery company v. Landman & Co.

The plaintiff avers that Isaac Landman and Louis Haas, of Toledo, Ohio, doing business under the name of Landman & Co., have unlawfully and fraudulently copied and imitated the trade mark of the Mellwood Distillery company, of Louisville, Ky., to deceive the public and have attached said trade mark to packages of whisky not produced or sold by plaintiff.

Plaintiff prays that Landman & Co. be made defendants to this bill.

The case will probably come up at the June term.

Fifth District Democrats in Session at Bryan.

A Rousing Convention—Resolutions Endorsing Cleveland, but Do Not Instruct the Delegates.

Bryan, O., June 1—(Special)—The democrats of the Fifth district met here to-day to nominate a congressman and select delegates to the Chicago convention. The district is made up of Defiance, Williams, Fulton, Henry, Paulding, Putnam and Van Wert counties, and the convention was one of the largest ever held in the district, great enthusiasm being shown by everybody in attendance.

Hon. John W. Winn presided and his remarks were cheered to the echo when he presaged a victory for the democrats at the polls in November.

Congressman D. D. Dovovan was renominated by acclamation.

The resolutions adopted were of the true blue kind and while they indorsed Cleveland they did not instruct the delegation.

The candidates for delegates to the Chicago convention are Fred Le Suer, of Defiance; C. N. Haskell, of Putnam, and Mr. Snook of Paulding. At the hour of filing the balloting had not commenced, but Le Suer was sure of being selected as one of the two delegates.

H. Stevens, R. Noland, Dr. James Handcastle, W. Flack, J. W. Snow, Al Snow and Edith Gordon (colored), who cooks for the Woolon family, boarding house keepers, were taken suddenly and violently ill shortly after they had eaten breakfast yesterday morning.

They were all seized with vomiting, suffering the most excruciating agony, the paroxysms of several of the sufferers rendering them unconscious.

Five physicians are in attendance, and it is their belief that at least one-third of the patients will die. It is a case of poisoning, but the character of the poison and how it was administered are mysteries, both to the physicians and police, who are making an investigation.

We Never Shrink

From our duty to our customers, consequently the clothing we sell never shrinks on our customers. We prefer to leave a man enough room to laugh in his sleeve if he wants to, and as we wish our customers to grow more we would not sell them clothing that grows less. The best material, therefore, is put in our garment. They are made in the best fashions by the best workmen, and if we don't ask the best prices for them it is because we are more anxious for customers than money. We are offering a special reduction on Summer Overcoats of 20 per cent. Our Straw Hat sale is still drawing the crowds, and we still lead in 25 and 50 cent neckwear.

Don't fail to try us. We will always be the reliable clothing house of Toledo.

The Bee

Practical Piety.

The Reverend Doctors Parkhurst and Rainsford, pastors of prominent churches of New York City, have stirred the people of the metropolis to something like activity on the question of the treatment of law-breaking vice in their midst. Dr. Parkhurst was told that the authorities could not obtain evidence to convict a certain class of criminals. The doctor thought differently and took steps to furnish the evidence himself, thus calling down upon his head and shoulders censure and praise in about equal proportion. He proved, conclusively, that evidence could be obtained, and, through his personal attention to the matter, convictions followed, and the keepers of disreputable houses were lodged in prison.

Dr. Rainsford has expressed a recent opinion on the saloon question. He boldly says the saloon cannot be abolished. Therefore he would have the church take it up and make it a respectable place. The New York Herald, yesterday, had an imaginative cartoon of "the church saloon." Placards were placed about: "Prayers after drinks"; "Pure whisky and pure piety on tap here," "Patronize only the church saloon," and others of like import. It is expected that the secular newspapers will ridicule such innovations, but it may be accounted something for promise that the churches are beginning to interest themselves in the temperal and present welfare of those around them that need helping and reforming. The command was to go out into the by-ways and hedges. The service of the Lord consists not in bowed heads in cushioned pews, while bodies and souls are starving for wholesome food and a purifying atmosphere. The awakening is a good omen, and those who decry pastoral and religious work outside the lines of pulpit and class room are not burdened of conscience for the sins of the world.

The Free Employment Office.

According to Commissioner Wright's last report, one million working men and women of this country were in a state of involuntary idleness, at that time—and the number to-day is scarcely lessened.

In the May number of the Charities Review, published in New York, the subject of how to better this deplorable condition of things is considered. Among other experiments, the Ohio law, passed two years ago, creating "free public employment offices" in certain cities of the state, is given extended notice. The first six-months' report showed 5,575 situations secured for men and boys, and 3,407 for women and girls, in the offices established in five cities. The entire cost of the offices up to January 1, 1891, was $5,000. These places secured through the usual paid channels would have cost about $20,000, Mr. Wright estimates, giving a clear gain of $15,000, in six months, to the working people of the state. Mr. Wright claims that $100,000 is spent annually in private employment agencies in Ohio, which sum can be saved to the workers by an expenditure of $10,000 by the state, "making a good showing for the free employment offices." "But," continues the Review, "the practical objection offered to these offices is suggested by the experience of the American people with that 'insidious and crafty animal,' the politician."

These figures, suggestions, commendations and conclusions are repeated just now because, for the first time since the office was created in this city, where it has worked satisfactorily from the beginning, the apprehensions of the Review are realized—the office is dragged into partisan politics by the republicans of Toledo, to their disgrace be it said.

Sherman on Silver.

Mr. Sherman's silver record from first to last, and his utterances on the question, would make splendid campaign material were he a candidate. He recognized in his speech, in the senate, yesterday, that "the free coinage of silver is not a partisan measure." But when he said "it is not a political question," and "is largely a local question," he was scarcely so happy in discrimination. There is big politics in the question, as the presidential candidate on both tickets will understand, and it is "a local measure," very much as the tariff is a local measure, as it was viewed by Gen. Hancock, at a certain period in his career.

The senator has once disclaimed the discredit of the demonetization of silver in 1873, but he yesterday plead that it was "unfair and unmanly to arraign the gentlemen who had charge of the bill. * * * The only trouble was the senators were not as wise as the Almighty and could not see ahead."

This admission, even at so late a day, is encouraging. Still, Mr. Sherman must allow that there were some common people wiser than "the senators," at that time, for they warned him and his colleagues and the country without stint, of the almost certain effect of the act, should it become a law, which it did chiefly through his effort. The declaration that he "is not unfriendly to silver" will be weighed for what it is worth—words against deeds.

John Sherman is a politician first a financier for himself, and, incidentally, for those who chance to be in his class; a perennial candidate as ready to unbend and double back on himself to catch votes and popular favor as any other man; a persuasive pleader and pettifogger when he sees the need and believes in the efficacy of it. He is, also, now as ever, an aspirant for the presidency.

The Syracuse Convention.

The democrats of the country, having the right to demand harmony in New York before listening to its claim to recognition in the national convention, will be disappointed upon learning that two delegations will seek admission as participants in the democratic deliberations at Chicago.

Grover Cleveland is undoubtedly the choice of nine-tenths of the democrats of the country to-day, but a democrat so astute, so earnest, so loyal as Mr. Cleveland will hardly countenance a movement which would win at the sacrifice of discipline. It is a dangerous game the brethren of the Empire state are playing and the precedent may return to haunt and disrupt the party in every section of the land. Grover Cleveland ought to be the next President of the United States, but he ought, also, to have such a following from his own state that would encourage democrats of other states to believe that New York will cast its electoral vote for the democratic candidate in November. The democrats of New York made a mistake yesterday in sending a contesting delegation to the Chicago convention.

"The Disappointed Ones."

If the present formidable uprising of Blaine men, or, as it is otherwise turned, "the anti-Harrison movement," is simply an expression of "disappointed ones," as Secretary Foster is reported to have said yesterday, more than ever is the fact emphasized: that of all political parties of the past or present, the republican is the party of spoils, and that alone. The president worked faithfully; his headsmen did their best to help him break his civil service reform pledges all to flinders. In this he succeeded so well that he called down upon himself the scathing censure of the reform league of mugwumps, many of whom voted for him upon the strength of his promises. He made new places for applicants whenever he was able. He rewarded campaign services of the most disreputable kind with emoluments of both honor and salary. He has kept in office proven dishonest and incompetent persons—and yet "the disappoitned ones" are sufficient in number to threaten and possibly compass his defeat for renomination. A high-minded old party it is, given such a character by one of its leaders, a United States cabinet officer.

Democratic Primaries

The democrats of Toledo chose delegates to their county convention on Tuesday night under the Baber law, and every democrat is pleased with the result. The Bee made a long and persistent fight in past years for better politics in the management of caucuses, and the good result of Tuesday is cause for self-congratulation. It is safe to say there will be no more caucus rows or disgraceful conventions in our party in Toledo for years to come. The party is united and harmonious. The elements of the city are democratic, and sooner or later this county is bound to come our way and elect democratic officers. It is safe to bank on this prediction.

The District Convention.

The democrats of the new Ninth congressional convention will meet in Toledo on Thursday to choose delegates to the Chicago convention. The selection of Mr. W. J. Colburn, of Toledo, is conceded. Each of the outside counties has a candidate for the remaining delegates. The convention to-morrow will bring new workers together, but all are zealous democrats and the proceedings will be harmonious. While this district is put down as safely republican the democrats should understand that they have a fighting chance. It is a good district in which to work.

To discharge a man "for cause" without giving him a hearing is in line with republican methods from the administration in Washington to the small big fellows who just now have it in their power to drag the free employment office into party politics. The office might as well be abolished at once if such methods are to be tolerated. The Bee prints advertisements for "situations wanted" and "help wanted" free of charge, every day in the week, and is the only paper in Toledo that does it. It is the best plan of all for bringing employer and employe together.

Lord Salisbury is "catching on" to the American method of campaigning. His scary speech about the civil war that will ensue if the Gladstonian policy of Home Rule for Ireland shall succeed, is an illustration. He is sure the Ulsterites would never submit to the priestly hierarchy Ireland would establish, and is equally certain that England would see it a duty to sustain Ulster in such protest. Then civil conflict would ensue. This and his "fair trade" utterances are the results of a study of American methods.

An Alliance correspondent suggests that the nomination of Secretary Rusk at Minneapolis might mean a "second the motion" at Omaha. Queer things we see: Mr. Rusk stands for high-tax legislation, monopoly, discrimination in favor of classes and all that these charges involve. Supposed to be the things the Alliance opposes.

J. Stanley Brown has gone to the Pribylov islands to gather information about the sealing industry for the secretary of state. Secretary Elkins is interested in the seal-fur monopoly; he would better look a little out for his old partner in the "anchor" business.

The Washington Post suggests to the democracy that no man in the party is so advantageously situated for nominational honors as ex-Secretary Whitney. He has "no entangling alliances; no unsettled obligations." The ex-secretary is a good man to keep in mind.

"I do not want to be renominated by the officeholders," plaintively said Harrison, and through the hustling of himself and his friends one hundred officeholding delegates will go up to Minneapolis, pledged to Mr. Harrison.

It causes a smile to read that: President Harrison "permits" his name to be used. This is what Secretary Foster said.

What will the republican senate do with a republican member's free silver bill?

A TOLEDO SYNDICATE

Buys an Extensive Block of Property

In the Business Center of Toledo, for Which Twenty-five Thousand Dollars Were Paid.

Another big real estate deal was closed this morning, and a piece of St. Clair street property changed hands for no small consideration.

Mr. Edward Moore sold to a syndicate, represented by I. H. Detwiler & Co., a lot on the corner of St. Clair and Oak streets, for which the purchasers paid $25,000.

The property in question was owned by he Hicks estate and deeded from Mrs. Hicks-Lord to the syndicate. The lot extends 132 feet on St. Clair street and joins the People's theater building, and 143 feet on Oak street.

SUNDAY SCHOOL WORKERS

In Convention at the First Presbyterian Church.

What Has Been Done Thus Far—The Officers—Program for This Evening.

The first session of the annual convention of the Lucas County Sunday School union was held at the First Presbyterian church last evening. An excellent song service was conducted by Prof. W. A. Ogden, followed by devotional exercises by Dr. J. A. P. McGaw.

The following committees were appointed:

On Nominations—Mr. E. J. Cannan, Mrs. M. R. Davis and Mr. H. L. Phelps.

On Resolutions—Dr. J. A. P. McGaw, Rev. O. P. Ross and A. R. Crittenden.

Rev. D. M. Fisk, in his usual entertaining manner, gave a lecture on "An Evening in the Holy Land," with stereopticon views. So vivid were his descriptions and so clearly were the pictures presented that it made one feel as though they had been on a journey to this wonderful country and had really come in contact with the prevailing influences of the time and occasion represented.

A collection of $14.23 was taken up last night, to be applied towards Lucas county's apportionment of $150 for state work.

The morning session was opened with devotional exercises conducted by Rev. W. W. Williams. Mr. L. B. Lake presiding and A. R. Crittenden acting as secretary pro tem.

A paper was then given on "What ought my school to expect of me as pastor?" by Rev. G. E. Hiller, who brought out the following points on the subject: "That We Should Set Them a Good Example;" that pastors should keep alive as to modern Sunday school work; that he should receive and recognize the Sunday school as the most important part of the church; should be present whenever possible; be punctual and preach from time to time a sermon on Sunday school work; watch the school library and keep it alive and pure; to address the Sunday school from time to time, but do not tread on the work of the superintendent and teachers. He brought forth the fact that while the pastor was a leader, he was not the only worker.

"What ought my school expect of me as teacher?" was Thomas J. Rowley's subject, who said that "I should be a Christian in all that the word implies; a member of the church where I teach, and that the aim should be to handle facts which are suited to individuals; I should aim to mould their minds for eternity.

"As superintendent." Mr. H. Gross stated that he would rather be a teacher than a superintendent: "I ought to use the workers which I have," and illustrated the fact by saying "that a careless shop superintendent would bring loss to the company; if I expect to be alive I must be lively. I believe in the text 'In all things showing thyself a pattern in good works.'"

"As Scholar" was commented upon by Miss Harriet Frankeberger in an able manner.

Miss Olive Brown gave three good reasons in her paper for being a teacher of a primary class—first, a sense of duty; second, a belief that it is a great privilege, and third, that a great blessing will be sure to follow.

A general discussion was then participated in on the different papers which had been read. After a benediction by Rev. Hiller a recess was taken until 2 o'clock this afternoon, when the following program was carried out:

Devotional exercises—Rev. M. A. Dyer, pastor Third Baptist church, Toledo.

"Temperance Teaching"—Rev. O. P. Ross, M. E. S. S., Swanton.

"Normal Lesson"—Marion Lawrance, general secretary Ohio S. S. association.

Reports of officers and committees, election of officers, general business.

Question drawer.

The following officers will be elected: President, L. B. Lake; secretary, A. R. Crittenden; treasurer, W. L. Rowland.

The exercises for this evening are as follows:

Devotional exercises—Rev. T. S. Buckingham, pastor Eleventh Street Church of Christ, Toledo.

"Common Sense in the Sunday School"—Discussion led by J. J. Freeman, superintendent First Baptist Sunday school, Toledo.

Address—Rev. A. J. Fish, pastor St. John's M. E. church, Toledo.

THE Y. M. C. A. ANNUAL

Has Been Postponed Until Friday.

Secretary Smith Says a Few Words About the Year Past—A Good Record Considering the Limited Quarters.

The annual meeting of the Toledo Young Men's Christian association was to have been held this evening, but owing to the unavoidable absence of the president and treasurer, it has been postponed until Friday evening.

Speaking of the association the year past Secretary Smith said this morning: "Although hampered by small quarters the success of the year's work has been all we could wish. All the reports will be favorable. Our membership at the beginning of the year was 561. At present it has reached 648 and the growth is steady. The year past has seen the birth of the Auburndale branch and witnessed its healthy and rapid growth, it now having 120 members and doing complete work in its own building.

"The financial side of our Toledo association is in good shape. All bills for the year have been paid and there is a balance on the right side of the books—a small one, but a balance just the same.

"Our need of a new building is evident. Other cities are far in advance of Toledo in this respect. I hope that our building project will soon take some tangible form."

Soon after the meeting Mr. Smith, accompanied by his wife, will leave on his vacation. The month of June will be a quiet one with the association. Considerable repairing will be done during the dull season.

Sunday afternoon Rev. S. G. Anderson will address the association meeting, his subject to be, "How to Give."

SILVER STANDARD OF CURRENCY

Discussion on the Subject in the French Chamber of Deputies.

Paris, June 1.—In the chamber of deputies M. Soubeyran moved an interpellation in favor of a silver standard of currency. He argued that if silver was demonetized it would no longer have any value in France. "In Austria," he said, "measures are now pending that will withdraw 750,000,000 francs in gold from the London and Paris markets. It is essential that the French government shall send representatives to the coming silver conference with instructions tending to effect a rise in silver and prevent a withdrawal of gold on a scale affecting the market. Both England and France ought to make most strenuous efforts to rehabilitate silver. The United States government is well disposed toward the project; Germany is less favorably inclined than England, but the bi-metallic movement is gaining ground. He concluded by asking the chamber to adopt an order of the day approving the program of the United States and France as arranged for the monetary conference of 1881.

M. Bourgeois asked whether the movement would denounce the monetary convention with Italy and Belgium. He argued that silver was daily decreasing and that artificial methods to sustain its value were useless.

M. Rouvier, minister of finance, in responding to the remarks of the previous speakers, said that the country most affected by the situation was Great Britain, owing to the relations of that government with India. Therefore it was the place of the British government to find a solution; the key to the situation was in London. The French government was disposed to give its delegates instructions favoring an increase in the value of silver, but these would be subordinate to the instructions given to the British delegates. It was necessary for France, M. Rouvier declared, to proceed with great circumspection in the matter. In the meantime the French government was opposed to the abrogation of the Latin monetary union.

In regard to the invitation extended by the United States to France to take part in the international silver conference, M. Rouvier said that the French government would accept the invitation, but would reserve the right of liberty of action both now and in the future.

ASHLEY ANSWERS.

He Says the Blade Misprinted His Letter

Addressed to Judge Pugsley Relative to the Brophy Matter.

In a recent issue of the Bee, it will be remembered, a statement was made that Stephen Brophy had sued Charles S. Ashley for $10,000 for alleged defamation of his character in an open letter addressed to Hon. I. P. Pugsley, judge of the Common Pleas court of Lucas county, and printed in the Blade.

Mr. Ashley to-day filed an answer to Mr. Brophy's allegation, which is quite interesting.

Mr. Ashley admits by the terms of his answer that he is an attorney at law, and that he did write a letter to Judge Pugsley, May 18, 1892, which was printed in the Blade. The answer states, however, that his letter was inacurately printed in the Blade and inacurately quoted in Mr. Brophy's petition.

He says that he did not say that "Twice before in this case Mr. Brophy has been accused of insincerity and misrepresentation," as alleged in the plaintiff's petition, but that he did say "Twice before, in this case Mr. Brophy has accused me of insincerity and misrepresentation."

The answer says further that the letter as written by him contained nothing attributing to the plaintiff any manner of dishonesty or want of uprightousness. Further, that the letter was written for the sole purpose of defending himself against what he deemed an unjust criticism and without any malice against or purpose of injuring the plaintiff in his profession.

VENEZUELA.

Priests Taking a Part in the Civil War.

New York, June 1.—A special to the Herald from Caracas, Venezuela, says President Palacio is distressed at the reports from all parts of the country, about the part taken by priests in the uprising.

He has sent word to the archbishop that if priests continue to side with the rebels there will be a dissolution of church and state. The Catholic population is greatly agitated over this threat as they fear Palacio may imprison the prelate if he refuses to interfere. They are arming themselves to resist Palacio in such a contingency.

The rebel general Mora is again threatening Puerto Cabello. The railway line between this port and Valencia is strongly guarded by government troops.

DEATH IN A MINE.

Prague, June 1.—Fire started in a colliery near here last night. Five hundred men were employed in the mine. Forty men were unable to escape and it is feared all are either burned or suffocated. Fourteen dead bodies have been brought to the surface.

CURRENT COMMENT.

Is it not possible to scare up a half dozen vice-presidential candidates? Where are they all? Four vice-presidents, be it remembered, became presidents.—New York Recorder.

In view of the trouble which Blaine's communication to Mr. Clarkson is making it is almost a pity he did not repeat the injunction given on another occasion and say at the bottom, "burn this letter."—Minneapolis Tribune.

It is said that the plan to nominate Secretary of War "Steve" Elkins for governor of West Virginia has been abandoned. It is well. The experience of Secretary Folger—by far a worthier man than Elkins—in New York ought to forever deter cabinet officers from accepting state nominations—Rochester Herald.

Congress ought to make it a high crime for anybody to tackle rain-making. The results of the experiments last year were a little bit slow materializing, but they have been proving just a little too obviously obvious.—Indianapolis News.

"Vim, Vigor, and Victory" is announced as the battle cry of Mr. Blaine's friends. If they must have alliteration, this is a decided improvement on "Rum, Romanism, and Rebellion."—Washington Post.

It should not be forgotten that the cry "anything to beat Grant," in 1880, succeeded in not only beating Grant, but also his strongest competitor. It begins to look as though if Benjamin falls at Minneapolis, he will pull James with him.—Ft. Wayne News.

A candidate for the vice-presidency with Cleveland on the democratic ticket has been suggested who is worthy the attention of the politicians. He is William R. Morrison, of Illinois. Illinois is a state which, with sagacious management, the democrats may have a prospect of carrying. It has been becoming closer of recent years.—Boston Herald.

Quay, Platt, Clarkson and Dudley are always making presidents and governors, but carefully avoid going before the people themselves. There is something in republican politics that makes a manager afraid of the people.—New York World.

If there is any patriotism or sense of decency left in the republican party it will not nominate Mr. Blaine. If his own shameful public record be not enough to defeat him, the records of the Quays, Dudleys, Camerons, and people of that ilk who are supporting him should be. The scandals which have followed Harrison's administration are bad enough, but they are as nothing compared with what would come to an administration by Blaine and the people who are making his present "boom."—Indianapolis Sentinel.

The ethics of flowers are better than the ethics of bullets. That is what Decoration day means. This is Decoration day in the states. Montreal keeps Decoration day, too, on a smaller scale. There are about 50 graves of American soldiers in our two cemeteries. Above the graves to-day American flags have been placed to direct the friends in their decoration. The waving flags, the kneeling figures lovingly placing the flowers on the graves, the humble posies in the hands of young girls taught by their mothers to cultivate feelings of gentleness and love, form a scene at once moving and beautiful. The flowers are less than nothing to the dead. Bestowed as they were to-day they teach that love is a higher gospel than guns.—Montreal Witness.

New York's Big Four Bound for Minneapolis.

New York, June 1.—The movement toward Minneapolis has begun. Last night at 6 o'clock Chauncey M. Depew and Gen. James W. Husted left for the convention city in Mr. Depew's private car. Frederick Ames, of Boston, accompanied the party.

To-day the second big four will begin the journey. Senator Hiscock did not intend to leave until to-morrow, but he has changed his plans. Ex-Senator Platt and H. O. Armour go together and on Friday morning the rest of the New York delegation will leave.

Before he left yesterday Gen. Husted was very emphatic in stating his belief that President Harrison will be renominated.

ADVISED TO FIGHT.

A Southern Preacher Who Talks About Force.

New Orleans, June 1.—Rev. J. A. Whittaker, pastor of the Central Congregational church, in a sermon last night urged his people to strive and better their condition, to show the whites that they were capable of advancement. He denounced mob law in unmeasured terms and concluded as follows:

"Advance if possible, but if in advancing you are threatened with deportation or death, take with you some of your enemies.

INSURRECTIONS.

New Orleans, June 1.—News was received here yesterday of an insurrection in Honduras. The rebels have attacked San Pedro, the inland terminus of the railroad from Puerto Cortes and had been repulsed finally after a desperate struggle. Puerto Cortes had also been attacked with a like result. The insurrection is based upon an attempt to overthrow the government of President Leiva.

HER PICTURE.

Want to paint her picture? Take a patch o' skies,
With cool shadows in 'em, an' you have her eyes;
Shadows where the sunshine tangles—but the blue,
Beautiful an' beamin', gleamin', streamin' through!
Want to paint her picture? Take a midnight drear,
Deep an' black, an' starless, an' you'd have her hair;
Yet there's light about it—somethin' you can mark
Like an April shower twinklin' through the dark!
When you slip the ribbon from the curls an' all,
Down they come a-tumblin' like a waterfall;
That's the time they dazzle—silky threads o' night
Fallin' all around her, shakin' out the light.
Lips? They're like a sunrise to a night o' curls,
Rosy red that mingles with a gleam o' pearls;
An' two shinin' dimples playin' hide an' seek
In among the flowers bloomin' on her cheek.
Want to paint her picture? Think o' all that's sweet—
All that hearts can beat for, when love makes 'em beat;
Then give love the pencil, dipped in colors clear,
With your heart, an' let him paint her picture there!

Henry George is just finishing two more books, one upon recent attitudes of Herbert Spencer. Mr. Spencer and Mr. George, by the way, have in common a sort of scientific curiosity and a faculty of minute observation. Mr. Spenser, who for years lived with a family not far from London and usually dined along with whatever guest happened to be present, took a most embarrassing interest in his neighbors' table manners and asked many singular questions tuoching whatever struck him as peculiar in the conduct of his fellow diners. Mr. George is nearly as unconventional in his queries of strangers or acquaintances.

HOW IT FEELS TO KILL A MAN

They do not call it murder when men meet to slaughter each other in battle. They simply report so many dead, wounded and missing. When you fire into the smoke concealing the other battle line, you fire in the hopes to kill or wound. It is your duty. Battles cannot be won without killing, and the result of battles changes the whole system of governments. You load and fire—load and fire—move to the right or left, advance or retreat, and when the battle is over you may have fired 50 rounds, and yet you have not had a near sight of the enemy. You have simply fired at him, and you cannot vouch that a single one of your bullets has found a living target.

Here is a brigade of us in battle line across an old meadow; our right and left join other brigades. We have thrown down the rail fence, gathered logs and brush and sods, and erected a breastwork. It is only a slight one, but enough to shelter us while lying down. A division of the enemy breaks cover half a mile away and comes marching down upon us. The field pieces behind us open on their solid columns, but they are not checked. Under the smoke we can see the work of the shells, but they cannot halt that mass of men. The grape and canister does awful execution, but there should be a dozen guns behind us instead of six.

They are going to charge us. The guns cannot prevent that. Orders run along the line, and we are waiting until every bullet, no matter if fired by a soldier with his eyes shut, must hit a foe. I select my man while he is yet beyond range. I have eyes for no other. He is a tall, soldierly fellow, wearing the stripes of a sergeant. As he comes nearer I imagine that he is looking as fixedly at me as I am at him. I admire his coolness. He looks neither to the right nor to the left. The man on his right is hit and goes down, but he does not falter.

I am going to kill that man! I have a rest for my gun on the breastwork, and when the order comes to fire I cannot miss him. He is living his last minute on earth! We are calmly waiting until our volley shall prove a veritable flame of death. Now they close up the gaps, and we can hear the shouts of their officers as they make ready to charge. My man is still opposite me. He still seems to be looking at me and no one else. I know the word is coming in a few seconds more, and I aim at his chest.

I could almost be sure of hitting him with a stone when we get the word to fire. There is a billow of flame—a billow of smoke—a fierce crash, and 4,000 bullets are fired into the compact mass of advancing men. Not one volley alone, though that worked horrible destruction, but another and another, until there was no longer a living man to fire at.

The smoke drifts slowly away—men cheer and yell—we can see the meadow before us heaped with dead and dying men. We advance our line. As we go forward I look for my victim. He is lying on his back, eyes half shut and fingers clutching the grass. He gasps, draws up his legs and straightens them out again, and is dead as I pass on. I have killed my man!

My bullet alone struck him, tearing that ghastly wound in his breast, and I am entitled to all honor. Do I swing my cap and cheer? Do I point him out and expect to be congratulated? No! I have no cheers, I feel no elation. I feel that I murdered him, war or no war, and that his agonized face will haunt me through all the years of my life.—Detroit Free Press.

"I desire once more to bear my testimony to the value of Allcock's Porous Plasters. I have used them for twenty-five years past, and can conscientiously commend them as the best external remedy that I have known. Years ago, when thrown from a carriage and seriously injured, I gave them a thorough trial. In a very short time the pain I was suffering disappeared, and within a week I was entirely relieved. On another occasion, when suffering from a severe cough, which threatened pulmonary difficulties, which I was recommended to go to Florida to relieve, I determined to test the plasters again. I applied them to my chest and between the shoulder blades, and in less than a fortnight was entirely cured. On still another occasion when suffering from an attack of rheumatism in the shoulder to such an extent that I could scarcely raise my arm, I again resorted to the plasters, and within a very few days the rheumatism entirely disappeared. I have them constantly by me, whether at home or abroad. My family as well as myself have found them to be a sovereign remedy, both for external and internal troubles. I never had but one kidney trouble in my life, and the application of the plasters cured me in a week. I desire, as I said before, to bear my testimony in a public way to their efficacy, and I know of no better way of doing so than by giving you my personal experience."

BLAINE NOMINATED.

Enthusiastic Mock Convention Held by Students of Wooster University.

Wooster, June 1.—A mock convention was held by the students of Wooster university, to determine who, among the candidates to be presented at the various national conventions soon to be held, is the favorite. The following candidates were presented: President Harrison, by J. Francis Seiberling; William McKinley, jr., by F. W. Nesbitt; Grover Cleveland, by A. L. Peacher; James E. Campbell, by Ernest Amos; John P. St. John, by L. H. Ford; Samuel Dickie, by J. L. Bickerstagh.

No sooner had the balloting commenced than the convention was stampeded by a telegram from the Hon. Matt Quay announcing that James G. Blaine would accept. The scene was a most exciting one. The students went wild at the naming of the Plumed Knight, and the convention en masse sprang to their chairs and amid waving flags and banners gave cheer after cheer for the magnetic statesman. Harrison was undoubtedly the second choice of the convention. His administration received the most hearty endorsement.

PROTESTANTS IN CANADA.

The School Question Discussed at Ottawa.

Ottawa, June 1.—In the house of commons there has been a long and bitter discussion caused by a resolution introduced by Mr. Armstrong, M. P. for Middlesex, having for its object the abolition of Roman Catholic separate schools and the French language in the northwest territories. The French members vehemently protested against any abrogation of their privileges in these matters.

Dalton McCarthy, queen's counsel, as leader of the Protestant party in the house, spoke very strongly in favor of the resolution. It is expected that the debate will be resumed in a few days.

THE MAY CONVENTION.

The Electors of the Albany Convention Chosen.

Syracuse, N. Y., June 1.—The convention completed its work last night and adjourned. When it came to the question of presidential electors Mr. Fairchild offered the following:

Whereas, The object of this convention is to correct the wrong done to the democrats of New York by the convention held at Albany on the 22d of February last in the selection of delegates to Chicago not representatives of their will, and,

Whereas, We realize that the action of the electoral college clearly registers the will of the party as proposed at the national conevntion and expressed at the polls, now, therefore, the better to assure the democratic party that we have no other wish than that the will of the party shall be fairly ascertained and registered by the electoral college, we hereby nominate as electors for president and vice president of the United States, the following citizens of New York:

Mr. Fairchild then read the list of electors named at the Albany convention in February and the resolution was adopted and the nominations thus were endorsed.

Mr. Pease, of Saratoga, a member of the resolution committee, then presented as a supplmentary to the platform the following resolution, which was adopted:

Resolved, That this convention approve and indorse the administration of Grover Cleveland, and we recommend him to the Chicago convention and to the democratic party and the patriotic people of the country for election again to the presidency.

THERE'S DANGER IN THE AIR

June a Season When Health Should be Attended To.

What Boiling Up the Blood and Shaking Up the Nerves Does to People—The Nervous System is at the Basis of all Health—Food for the Brain and Nerves an Absolute Necessity at This Time.

"June is a month when, no matter how glad people may be that summer is at hand, they do not and cannot feel entirely well. A hot day comes and the mercury goes up to summer heat, the next day the wind changes and brings a chill with it. The blood is all boiled up, the nervous system shaken. People speak of feeling languid and tired, but it is in reality a disordered condition caused by the weather."

The above remarks were recently made by a prominent physician to a merchant who was complaining about not feeling well.

Let us explain further why this feeling of weakness is so common at this season.

There is one great cause underlying all this, and that is weakened nerves. The trembling hand, the quick and sometimes uncertain step, the languid feeling, the headaches, the sleeplessness, all indicate this. If people would be well they must first of all look to their nerves. They are the basis of all health and of all real strength. This is admitted by the best scientists of today. And it is also generally conceded that the great modern discovery which can control the nerves and keep them in their proper condition, is Paine's celery compound. This scientific combination, which is the result of years of perseverance and study by Prof. Phelps, of Dartmouth, is beyond question superior to anything that has been discovered for the nerves and blood and the innumerable troubles which follow the changes of the seasons.

The most prominent men of the country indorse this compound. Commodore Howell recommended it to Secretary Blaine. Dr. Hannaford indorses it in his medical writings. Hon. Wm. A. Crombie, whose business offices are now at No. 18 Broadway, New York, who was formerly mayor of Burlington, Vt., says:

"I have great pleasure, from some personal and a somewhat extended general experience, in being able to state that Paine's celery compound is a most excellent remedial agent, and deserves the popular patronage it enjoys."

When the seasons are changing from spring to summer the health should be then guarded most carefully.

The best way to do this is to use something that will purify the blood and strengthen the overtaxed nervous system.

That such a preparation has been found is acknowledged by the most eminent physicians, and by those who have used it with highly satisfactory results.

THE MAY CONVENTION.

Platform Adopted by the Anti-Hill People.

The following is the platform adopted by the Cleveland convention held in Syracuse Tuesday:

We, the delegates of the democratic party of the state of New York, assembled in convention at Syracsuse, declare that the most urgent necessity of the country is a radical reform in the administration of the federal government.

We declare that the democratic party alone is true to the people and alone can be trusted to administer the government of the nation in the interest of the people.

We denounce the republican party for its abuse of power during the past four years. Obtaining in 1889 control of the executive and both branches of congress, that party immediately entered upon a course of extravagance, favoritism and fraud.

It found the treasury in receipt of a large and increasing surplus; but disregarding the duty thus imposed upon it to relieve the people from the oppressive tariff taxation so long endured, the republican party, through its "billion dollar congress," enacted appropriations amounting to five hundred millions annually.

It made most of these appropriations permanent so that they cannot be reduced by the present democratic house of represensatives without the concurrence of the republican senate.

Thus without at all reducing taxation it turned an overflowing surplus into an imminent deficit. It went to lengths of class legisuation before unheard of by enacting the McKirley bill.

It deprived the state of New York of its just representation in congress and in the electoral college by a fraudulent census.

It displayed an utter contempt for economy and honesty by its strenuous endeavor to enact into law the infamous force bill.

Contrasted with this history of extravagance and oppression, we recall with ever increasing satisfaction the wise and prudent democratic administration of Grover Cleveland. He pointed out in his message of December, 1887, the true mission of the democratic party, and through temporary defeat brought it to the magnificent victories of 1890 and 1891. All this has been remembered by our brethren in other states from the Atlantic to the Pacific and New York, we emphatically declare, is not a blank upon the democratic map.

We denounce the McKinley tariff. We declare that a tariff is a tax; that all taxation is a burden; that it should never exceed the necessities of a government wisely and economically administered.

We condemn the present tariff, not only because it is excessive and restrictive of the commercial development of the country, but because it was enacted in the interests of a few at the expense and for the oppression of the masses. It is class legislation. It does not increase the receipts of wage earners, but it turns over to the protected manufacturers, ever becoming more and more rapacious, the federal treasury and the taxing power of the government to use for their own benefit and it leaves it to them to decide whether or not the wage earners they employ shall receive any part of this enormous bounty. It is an inexhaustible source of corruption, a constant menace to free government. It saps the independence of industry and induces men to seek to grow rich by official favoritism rather than by their own exertions. An inevitable consequence is that the class in receipt of these vast pecuniary favors should seek to perpetuate their grasp in government by supplying in practically unlimited amounts the money wth which an electorate may be corrupted and popular government destroyed.

The democratic party has no more urgent mission than to destroy a system productive of so much evil, and, in a spirit of moderation, with due regard to the interests of capital now invested and labor now employed in protected industries, the paramount duty of the party is to continue its opposition to th etariff until all customs taxation is enacted for revenue only.

We approve the use of both gold and silver as money; but we demand that dollars, whether gold or sliver shall be equal in value to each other in fact as well as by declaration of law. We are opposed to the free coinage of silver by the United States alone at the existing rate 16 to 1, because we do not believe that free coinage at that ratio will produce equality of real value between the gold and silver dollar.

We believe that democrats throughout the country regard with anxiety the condition of the party in this state, and look to us to act in a manner that will secure party success in the approaching election.

For that we are solicitous, and to that end we recognize the necessity of an organization as the machinery through which the party may direct its energies; but when such organization claims to be the party itself instead of its instrument; when is suppresses the voice and misrepresents the desire of the party; when it calls the caucuses at unaccustomed seasons and upon insufficient notice; when, regarless of the votes there cast, it places on the convention roll and admits to the convention only those who, regardless of the views and wishes of their constituents, who agree in advance to support the schemes and candidates of the oligarchy it has esttablished; when it gives notice in advance that they who will not agree to be so subservient will not be admitted; then it ceases to be representative, creates discontent, arouses resentments, weakens the party and greatly imperils its success.

In this emergency it becomes the duty of the original elements of the party to take such action that will restore to it just relations between its members and their agents.

The democratic party retains unshaken confidence in the ability and lofty intergrity of Grover Cleveland and his devotion to public duty; he is the choice of an overwhelming majority of the democrats of New York and the country may rely with confidence on his ability to carry the state triumphatnly in November.

We believe that, by nominating him to lead the party in the approaching contest for the presidency, the national convention will carry out the almost unanimous wish of the party and best consult the welfare of the country. We recognize that the wishes of the majority of the party should prevail and we pledge ourselves to support the candidates nominated at Chicago.

The delegation chosen by this convention is instructed to act as a unit according to a determination of a majority of its members.

WEDDINGS AND ROSES.

They Come in Together in June.

Many Well Known People Walk Up to the Altar of Hymen and are Happy.

New York, June 1.—The June wedding season opened to-day with a remarkably large number of fashionable events, and the entire month promises to be more prolific of the "giving in marriage" than any previous June within the memory of the oldest Murray Hill residents. Over 300 society people went down on a special train to Staatsburg this morning to witness the nuptials of Miss Helen Dinsmore and Robert P. Huntington, jr., which were solemnized at St. Marguerite's church at that place at high noon. The guests were conveyed from the depot to the church, a distance of two miles, in tally-hos. The floral decorations at the church as well as at the "Locust," the country residence of the Dinsmore family, were particularly lavish. Miss Liene Dinsmore was maid of honor and Mr. Ford Huntington was best man.

Price-Post.

New York, June 1.—The wedding of Miss Emily Bruce Price, daughter of Mr. and Mrs. Bruce Price, and Edwin Main Post, son of Mr. and Mrs. A. V. Post, was solemnized at noon at the country seat of the bride's parents, Rocklawn, at Tuxedo. The ceremony was performed by Bishop Whipple, of Minnesota, who is connected with the family, his son having married a sister of the bridegroom's mother, and who came especially from the northwest to officiate.

The bridesmaids were Misses Esther Lawrence, Marie Stirling, Georgie Barrow and Sadie Price, the latter three of Baltimore. The bridesmaids' costumes were made by Worth, and reached here only two days ago. The pale green silk skirts are of dancing length, and completely draped with silk mulle of the same color.

The high, straw colored corsages had Watteau plaits, a delicate rose tint being introduced under the transparent materials. The imported hats were straw colored Leghorns with three large plumes on each side. The bride was attired in ivory colored satin, with high corsage trimmed with clusters of orange blossoms, and a veil of point d'Alencon. Tiny Henry V. Post was page.

A. V. Z. Post was best man and the ushers were Theodore A. Havemeyer, jr., Regis Post, Lyman Colt and Spofford Pearsell.

MacDonald-Smith.

Chicago, June 1.—The marriage of Charles Frederick Smith, a nephew of A. J. Drexel, of Philadelphia, and Miss Kathleen MacDonald, was solemnized at the residence of the bride's parents at high noon to-day. Guests from New York and Philadelphia were present.

Wright-Phelps.

Wilmington, Del., June 1.—A brilliant company witnessed to-day the wedding of Mr. Sheffield Phelps, son of Hon. Wm. Walter Phelps, United States minister to Berlin, and a member of the staff of the New York Mail and Express, and Miss Claudia Wright, daughter of Hon. Preston Lea, one of the oldest and most honored citizens of Delaware. The ceremony took place at the residence of the bride's parents on Delaware avenue.

Fuller-McDowell.

Boston, June 1.—The marriage of Henry B. McDowell, son of the late Maj. Gen. McDowell, of the United States army, and Miss Maud Appleton Fuller, took place at noon to-day in King's chapel in the presence of a large and fashionable audience.

Although it is not claimed that Ayer's Sarsaparilla cures every ill to which flesh is heir, yet, as a matter of fact, it comes nearer doing this than any other medicine ever compounded. In purifying the blood, it removes the source of nearly all disorders of the human system.

KILLED BY HIS SON.

London, June 1.—Mr. F. G. Greatrex, a wealthy citizen of Leamington, was shot and killed by his son, who declared that he killed his father because his allowance of £1,000 a year was too small. The son is 40 years old and the father was 80. Two shots were fired. The tragedy occurred in the street in the presence of many people.

NO OPIUM IN ANY FORM.

Cough and croup syrups usually rely upon laudanum or paragoric to relieve a patient. This is injurious. Dr. Hoxsie's Croup Cure cures without it. 50 cents.

FAVORED THE DEMOCRAT.

Washington, May 31.—The house committee on elections by a vote of 7 to 2 decided the contested election case of McDuffie against Turpin, from the Fourth Alabama district, in favor of Turpin (dem.), the sitting member.

Garfield Tea cures constipation, dyspepsia and sick headache; restores the complexion and saves doctor's bills.

DRIVEN AWAY BY CHOLERA.

Calcutta, June 1.—All the Europeans have left Seringuer. There have been 2,450 deaths from cholera there since May 7.

DIED AT 79.

London, June 1.—Sir Francis Burdett, cousin of Baroness Burdett-Coutts, has died, aged 79.

SAYS CONGER, SAYS HE.

Mr. Blaine Will Not Again Decline.

Strong Blaine Talk from a Man Who is on the Inside of Affairs.

Chicago, May 31.—"Mr. Blaine will not write another letter," said National Committeeman A. L. Conger, of Ohio, this morning. Mr. Conger is in Chicago en route to Minneapolis and stopped over a day to break the journey.

"Either Mr. Blaine or the president will be nominated," continued he, "and I am satisfied that Mr. Blaine will be the man. The country wants Blaine and his reciprocity plan, which has made him so popular."

Mr. Conger laughed at the claim of the Harrisonites that the president has 693 delegates pledged to him. "The president has no such number," declared he; "I am quite sure that the majority of the delegates are Blaine men."

Mr. Conger believes there is no doubt that Blaine will accept, and in any event some of his friends will know his intentions before the convention meets.

Mr. Conger will hold a conference with J. S. Clarkson, J. Sloat Fassett, Henry C. Payne, of Wisconsin; National Committeeman Hobart, of Michigan, and other Blaine leaders to-night at the Grand Pacific, and there is little doubt that this meeting will outline the plan of campaign at Minneapolis.

DOCTORS FRANCE AND OTTMAN,

Formerly of New York, now the Celebrated Examining Physicians of THE FRANCE MEDICAL AND SURGICAL INSTITUTE, Columbus, Ohio, by request of many friends and patients, have decided to visit Toledo

Dr. France, Thursday, June 9.
Dr. Ottman, Saturday, June 18.

Consultation and Examination Free and Strictly Confidential in the Private Parlor of the Burnett House from 10 a. m. to 9 p. m., one day only.

The doctors describe the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. Their diagnostic powers have created wonders throughout the country.

The France Medical and Surgical Institute of Columbus, Ohio, is the only Medical Institute in the State incorporated with a Capital of $300,000.00.

FRANCE MEDICAL AND SURGICAL INSTITUTE,
38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.

DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession.

CANCER positively cured without pain or use of the knife, by a new method.

IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method. Testimonials furnished.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.

Persons ruined in health by unlearned pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately. Delays are dangerous.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but where possible, personal consultation is preferred. Curable cases guaranteed. No risks incurred.

☞ Cases and correspondence confidential. Treatment sent C. O. D. to any part of U. S. List of 130 questions free. Address, with postage, DR. FRANCE, Nos. 38 and 40 W. Gay St., Columbus, O.

IN TRADING CIRCLES.

Both at Our Home and Abroad.

Wheat Quotations for the Day—Price Currents for Produce and Other Articles.

The receipts of wheat to-day at Minneapolis and Duluth are 209,593 bu and at five other western points 207,960 bu.

The export clearances yesterday at four Atlantic ports were: Wheat 76,793 bu and flour to an aggregate of 200,000 bu. Export of corn 109,814 bu.

English markets open dull. London steady for wheat and firmer for corn. Liverpool dull but higher for wheat and corn.

The Markets To-Day.

The wheat markets in this country are dominated to-day by the influences that have heretofore for weeks controlled prices It is a relief that May is past with all its dealing begun six months ago, and we are now confronted with no fears of corners or squeezes. The unfavorable weather is the leading feature, in the job lot of conditions that control prices, and we cannot but think we are to be disappointed in the outcome of the wheat crop. Simply rain produces straw, but not vigor and resulting wheat. We do not, by any means, believe that the conditions of the past month have been favorable to the crop anywhere.

As for corn, the great commercial crop, a dark cloud shadows it, and the sreult cannot but be very much shortened by comparison with even an average year.

To-day it is raining hard at Kansas City and other sections.

Receipts of wheat are now on a more liberal basis, and winter wheat is moving more freely. Receipts to-day of winter and spring at seven principal western points, 418,000 bu. Last year, same Tuesday, 138,000 bu. Exportation is shrinking and is greatly less than ten days since. But these points loose their just importance in view of the weather.

Wheat opened higher as usual—advanced to 83 3-4 at Chicago, a gain of 3-4, but as usual, broke off and lost most of the advance.

Corn opened 3-8 to 1-2 higher for July, advanced to 48 3-4, a gain of 1 3-8, but also broke off and lost much of the advance.

I n New York June wheat closed 5-8 lower, July 1-4 lower. June and July corn 1c higher. June oats 1-8 up.

In Chicago June and July wheat closed 3-8 up. June corn 1 1-8 and July 7-8 higher. June oats 1-2 higher.

In Toledo.—Business is very light. The mutations of the market for the last two or three months have whipped the money out of speculative buyers as fast as invested, and the number is always limited who desire to speculate on the short side, and safe to sayhrdlubrdlucmfwypmfwyp and to make it very short, it is safe to say speculators are doing but very little. There is no new feature in the deal. It has been a firm market for wheat, and prices close generallya shade better except cash wheat, which is steady. July closed 1-2c and August 1-4c higher. On the call cash wheat sold at 91c to 91 1-2c. July at 87 1-2c to 7-8c, closing at 5-8c; August at 85 3-4c to 86c, closing at 85 5-8c.

Reading, Sugar Trust, St. Paul, and Nor. Pac. pfd. were the most active speculatives. Toward 11 o'clock per cent. by 10:30. Toward 11 o'clock there was some buying and most of the decline was recovered. A pressure to sell Northern Pacific caused the whole list to weaken again and at noon the bottom figures were generally current. At noon they have only slightly changed from last night. At this writing the market is dull. Sales 148,089 shares.

ADDITIONAL SPORTING.

London, June 1.—The unexpected victory of Jackson over Slavin last night is the talk of the city to-day. Slavin will probably retire, while Jackson, after touring the country, will return to America with his manager, "Parson" Davies.

The sports in attendance upon the fight, while applauding Jackson's magnanimity in not finishing off his opponent earlier in the contest, think he would have been more humane had he done so. Jackson is not a savage fighter, and when in the tenth round, though blind and dazed, Slavin pluckily declined to lie down and admit his defeat but held up his gory head to receive blow after blow, Jackson in a helpless dogged manner stopped and looked around the ring as much as to say, "Haven't I done enough?" His adherents warned him to continue his blows and again they were rained upon the almost defenseless man before him. Slavin swayed feebly, stood up again, but finally in response to a terrific blow, sank in a heap on the floor.

In the opening rounds Slavin foolishly played for his opponent's head, while Jackson's deadly play was at Slavin's stomach. In the face of the punishment administered Slavin's recuperative power was wonderful. Although he received the most punishment he made the greater number of leads, and made such game stands that Jackson's admirers sometimes feared for the result.

There was a strong American contingent present, and also a liberal sprinkling of actors, who paid their 25 sovereigns to see what proved to be a marvelous exhibition of skill and endurance. The betting was languid.

—:—:—

The talent, that is the portion of the racing world that bet on first choices, in the betting at Mom's park yesterday were all big losers, and the king of them all, Michael F. Dwyer, found himself something like $30,000 out at the close of the afternoon. He bet $2,300 on the first race, $4,500 on the second, and continued to double his bets all through the program. He did not pick up a bet, and his immense losings were the sole topic of conversation in turf circles last evening.

THE PAVERS.

Union Men Quit but the Work Progresses Just the Same.

New York, June 1.—The Paving Cutters' National union gained the upper hand today for the first time in the war against the New England Contractors' association.

All the union men, whom the contractor in charge of paving Third avenue induced to go to work last week, left to-day and rejoined the ranks of the strikers.

They took with them a half dozen non-union pavers, whom the contractor had brought from other cities. All thei rplaces were soon filled, however, and the work of paving the avenue is going on as usual.

There is little change in the granite cutters strike this morning. News was received at the headquarters of the strikers in this city, that the employes of the New England works of Concord, N. H., numbering about 400 had gone on a strike. Their bill or prices expired by limitation yesterday and the bosses refused to renew the contracts before the first of January next. The strike was the result.

Piloting Steamboats Through a Fog.

Some Narrow Escapes Reported in Chicago.

Vessel Passages Through Rivers and Straits—Local and General Mention.

Chicago, June 1.—(Special Marine Service)—The fog and thick weather on Lake Michigan continued up to noon yesterday, and tugs were stationed at the piers and at the outer breakwater to whistle steamers and tugs with tows into the harbor.

It was tedious work and there were some narrow escapes. The steamer Alaska came into the harbor during Monday night by the whistle process. An outward-bound steamer narrowly escaped going ashore at Capt. Streeter's "shipyard" at the foot of Superior street at 11 o'clock Monday night.

The steamers Indiana and Puritan came in safely at 4:30 o'clock yesterday morning, preceded by the City of Traverse and the City of Chicago. The Racine and Albert Soper came in at 5:30 in the morning and the Harlem at 8. The steamer Brazil, light, came in from South Chicago.

Policemen sent out to the Charles Eddy and consort Newell Eddy, on tugs, had some difficulty in finding them, but did so finally, and arrived in port with the clearing of the fog at 2 o'clock in the afternoon. It rained all the afternoon, but the weather was tolerably clear and vessels bound out left the harbor.

The union sailors under arrest in Milwaukee for driving off the non-union crew of the barge R. L. Fryer and carrying away the men's dunnage, after assaulting the mate, are John Peterson, Leonard Amerson and Thomas Nelson. Albert Gallansk, one of the non-union men, was left in port under pay by the captain of the Pryer to appear in court and prosecute the union men, who are charged with assault and battery and robbery.

Lake Rates.

Chicago, June 1.—Shippers could not agree to the proposition to hold off on charters, and a dozen or more big carriers were chartered this morning at the old rate. Ore tonnage is not as plentiful as it was thought it would be, and a rate of 65c from Escanaba is steady, with Ashland at $1.10. Marquette shippers have not as yet secured any boats at 90c.

GOLD AND SILVER.

Secretary Foster Says There'll Be No Premium on the Former.

New York, June 1.—Secretary Foster, who is in this city, in conversation with a reporter of the United Press to-day on the subject of free gold, said:

"The public generally has not the right idea about the free gold in the treasury. I have looked into the subject lately, and I find no law whatever in regard to the retention of the $100,000,000 fund held to secure the greenback issues.

"As a matter of fact, about $52,000,000 of the greenback issue have been retired, and the treasury is bound to hold only as much gold as there has been issued gold certificates to retire the greenbacks.

"So the free gold in the treasury is really $61,000,000, and not something over $113,000,000, as the public seems to think.

"There is one thing, moreover, of which every one may be sure, and that is that there will be no premium on gold during this administration. I have the power to issue bonds to keep the two metals at a parity, and they will be kept at a parity."

MAGIC PICTURES.

F. Tscholfen, of Vienna, has invented a novel magic picture card. It consists in an apparently blank piece of glazed paper or card or other suitable material which, on being rubbed over with colored pencils or crayons, or with colored powders or the like, produces pictures or words—such as answers to questions—visibly printed above.

A piece of glazed paper, card or other suitable material is inscribed with letters or words or pictures, preferably in outline, written or printed with a mixture of finely-powdered chalk, water and gum arabic, or of any suitable mixture which is capable of imparting to the lines a rough surface. Such inscription will, on being dried, be totally, or at least almost, invisible, but on rubbing the card, etc., thus prepared with chalk crayons, powder, etc., the latter will adhere to the roughened lines, but not to the glazed surface of the card, thus bringing out the inscription or picture.

PLACED IN THE GRAVE.

Fremont, O., June 1.—The funeral of the late Gen. Ralph Pomeroy Buckland took place yesterday afternoon and was one of the largest ever witnessed here. At the residence services were held by Rev. Aves, of Norwalk, and at the grave military burial services in accordance with the Grand Army ritual. Many members of the Second regiment were present to pay the last respects to their dead commander and in the funeral procession they held the position of honor.

The statues of the twelve apostles are set up in the court of King Behanzin, the ruler of Dahomey, who, in his annual religious celebrations is supposed to sacrifice at least 1,000 human victims. The father of the present king some years ago received a number of Catholic priests at his court, and they won favor in his eyes by teaching the people the duty of submission to the king. They induced the king to destroy some of the indecent fetiches in the capital. When they were about to go away the king said to them: "I have received you well and have even demolished the fetiches you think immoral, and in return I now insist that you shall show me your God to set up in their place." They extricated themselves with difficulty by sending statues of the twelve apostles, which were set u in Abomey and are still there.

BAD SKIN ERUPTION

Many Years—All Manner of Medicines and Doctors Fail—Cured in One Month By Cuticura.

In 1885 I had an eruption come out on my skin, and while at first it did not amount to much, it grew to be very aggravating and at times unbearable. The skin would get hard, inflamed, and peel off, leaving an entire new skin, acting same way for weeks at a time, always worse at nights. Have tried all manner of medicines and had doctors prescribe to no effect. I bought a box of CUTICURA REMEDIES and used CUTICURA RESOLVENT for my blood. I am fully cured, and in less than a month. It was a most aggravating skin disease, and now I am enjoying ease and comfort. I have had untold benefits. Anyone trying CUTICURA REMEDIES cannot help but derive benefit. Anyone writing me will receive an answer and my advice to give your REMEDIES a trial.

Garden City, Kansas.

Doctor Uses Cuticura.

We have opened a drug store at this place and are having a splendid sale on CUTICURA REMEDIES, which we keep a full stock of. I would not be without your CUTICURA RESOLVENT, CUTICURA, and CUTICURA SOAP for $500, just for the benefit it did my little boy. When he was six months old, his face was covered with eczema, and CUTICURA REMEDIES cured it. He is now three years old. We still use the CUTICURA SOAP, and wash him occasionally with it, to prevent his skin from getting rough. We have handled your medicines for five years, and never heard a complaint against them, but abundant praise. We sold our drug store in Kansas, and will continue in the drug business here.

STRANGE COMPANIONSHIP.

A notable instance of this oddity came under the writer's notice once upon a time on a ranch that was largely devoted to stock raising. Cattle, horses, and hogs were kept in large numbers and allowed to run at will upon the range. One day in riding over the mesa an oddly assorted trio was found in a locality at a considerable distance from any other animals. This trio was made up of a cow, a horse, and a pig, and all three were feeding side by side in the most amicable manner. At first it was thought to be nothing more than a coincident that the three members of different families should happen to be together, but subsequently it turned out that this trio had evidently set up an alliance offensive and defensive against all the other animals on the range. They were always together. It was a comical sight to see the oddly assorted trio traveling over the range. The horse usually took the lead, with the cow next and the pig last of all. Occasionally the horse looked around to see if his porkship were keeping up, and if he fell behind a halt would be made to allow him to come closer. When feeding the pig was just as apt to put his snout down by the horse's or cow's mouth and endeavor to snatch the grass from between their teeth as to graze on his own hook. One could almost see in the countenance of the large animals a sort of half-humorous, patronizing air as they regarded their diminutive companion, while the pig on the other hand walked with a bullying swagger and a self-confident air, for all the world like the youngster who trots along by the side of his "big brother," in the full assurance that all his battles will be fought for him.—San Francisco Chronicle.
